The Showroom
Experience

From display
to experience.

A merchandising system that gives texture, relief, and color the space
they need to evolve into architecture.

Dal display
all'esperienza.

Un sistema di merchandising che conferisce a materia, rilievo e colore
lo spazio necessario per trasformarsi in architettura.

THE POWER OF PRESENCE

A wall that commands attention

Large-format surfaces transform ceramic coverings into a visual experience.
The collections are presented not as isolated samples, but as complete architectural settings.
The repetition of the module, the depth of the relief, and the interaction with light create an immediate, memorable impact.
Discover the surface.

Una parete che ferma lo sguardo

Le grandi superfici trasformano il rivestimento
ceramico
in un'esperienza visiva.
Le collezioni non sono state
presentate come campioni isolati, bensì come
ambienti architettonici completi. La
ripetizione del modulo, la profondità
del rilievo e l'interazione con la luce
hanno creato un impatto immediato e
memorabile.

MERCHANDISING AS A BRAND EXPERIENCE

One story. Three moments.

ATTRACT

Full-size panels reveal rhythm, scale and the architectural strength of the pattern.

ATTIRARE

I pannelli a grandezza naturale rivelano il ritmo, la scala e la forza architettonica del motivo.

TOUCH

The desktop display brings colors, finishes, and tactile details within reach.

TOCCARE

L'espositore da scrivania porta colori, finiture e dettagli materici a portata di mano.

Una storia. Tre momenti.

IMAGINE

Lifestyle imagery connects the sample to a real interior and makes specification easier.

IMMAGINARE

Le immagini di ambientazione collegano il campione a un interno reale e facilitano la specifica.
