## New Actual Sizes Rectified - Shine - Lappato

por Del Conca - Info | [info@delconca.com](mailto:info@delconca.com)

---

Dear Valued Customer,

With our new squaring and polishing lines now fully operational, we slightly modified our ACTUAL SIZES for all rectified items in all thicknesses included in our range as per the attached file.

The new ACTUAL SIZES allow for a modular installation with a 2 mm joint.

These new sizes are identified on all our paperwork as "CALIBER 2".

We remain at your complete disposal for any further assistance you may need.

Best regards.
