Una ceramica che arriva da lontano

CERAMICS WITH A PROUD TRADITION
EIN UNTERNEHMEN MIT EINER LANGEN GESCHICHTE
UNE CÉRAMIQUE QUI VIENT DE LOIN

Dal 1962 il Gruppo Del Conca racconta una storia affascinante di passione e sperimentazione. Nata da un piccolo laboratorio artistico ceramico a Faetano, la nostra impresa ha saputo trasformare una tradizione artigianale in una realtà industriale d'eccellenza. Nel 1979, con una chiara visione imprenditoriale e un'inclinazione verso l'innovazione, nasce Ceramica Del Conca che, grazie alla capacità di cavalcare le evoluzioni tecnologiche e di design, diventa punto di riferimento del Made in Italy nel mondo. Oggi, grazie a impianti di ultima generazione e a un approccio sempre orientato al design e alla qualità, creiamo collezioni in grado di rispondere alle più diverse esigenze estetiche e progettuali dell'architettura contemporanea. Tradizione, ricerca e innovazione si fondono per dare forma a superfici che parlano un linguaggio universale di bellezza, funzionalità e sostenibilità.

Since 1962, the Del Conca Group has been telling a fascinating story of passion and experimentation. Starting out as a small ceramic workshop in Faetano, our company has successfully transformed a traditional craft into an outstanding industrial enterprise. In 1979, a clear entrepreneurial vision combined with innovative flair led to the foundation of Ceramica Del Conca, which embraced the latest developments in technology and design to become an emblem of Italian excellence worldwide. Today, thanks to state-of-the-art facilities and an approach that is always focused on design and quality, we create collections that can meet the most diverse aesthetic and design requirements of contemporary architecture. Tradition, research and innovation come together to create surfaces that speak a universal language of beauty, functionality and sustainability.

Die Geschichte der 1962 gegründeten Del Conca Gruppe ist spannend und von Leidenschaft und Experimentierfreude geprägt. Unser Unternehmen, das mit einer kleinen Keramikwerkstatt in Faetano seinen Anfang nahm, hat es geschafft, auf einer handwerklichen Tradition ein angesehenes Industrieunternehmen aufzubauen. 1979 folgte die Gründung von Ceramica Del Conca, beruhend auf einer klaren unternehmerischen Vision und innovativem Denken. Im Einklang mit der Entwicklung von Technologie und Design etablierte sich der Fliesenhersteller in Verlauf der Zeit weltweit zu einem Maßstab für das Made in Italy. Mit hochmodernen Anlagen und unserer ausgeprägten Design- und Qualitätsorientierung gestalten wir heute Kollektionen, welche die vielfältigen ästhetischen und technischen Anforderungen moderner Architektur erfüllen. Tradition, Forschung und Innovation spielen zusammen und schaffen Oberflächen, die eine universale Sprache der Schönheit, Funktionalität und Nachhaltigkeit sprechen.

Depuis 1962, le Groupe Del Conca écrit une histoire riche de passion et d'expérimentation. À l'origine simple atelier artistique de céramique à Faetano, le groupe a su faire évoluer un savoir-faire artisanal vers une entreprise industrielle de tout premier plan. En 1979, portée par une vision entrepreneuriale affirmée et une recherche constante d'innovation, Ceramica Del Conca voit le jour. Grâce à sa capacité à saisir les évolutions technologiques et esthétiques, l'entreprise s'impose rapidement comme une référence du Made in Italy à l'international. Aujourd'hui, forte d'installations de dernière génération et d'une approche constamment orientée vers le design et la qualité, Del Conca conçoit des collections capables de répondre aux exigences esthétiques et techniques les plus variées de l'architecture contemporaine. Tradition, recherche et innovation se conjuguent pour donner forme à des surfaces qui expriment un langage universel de beauté, de fonctionnalité et de durabilité.

PROFILE

Il design è un processo di continua evoluzione. Le nostre superfici ceramiche nascono dall'incontro tra estetica, tecnologia e cultura del progetto: una sintesi perfetta tra ricerca, sperimentazione e qualità. Texture, colori, piccoli e grandi formati, lastre e spessori differenti si combinano per dare vita a progetti dal carattere contemporaneo, capaci di interpretare ogni spazio architettonico. Effetti pietra, marmo, cemento legno, diventano strumenti di espressione per architetti e designer, in una gamma completa di soluzioni trasversali a ogni stile, pensate per durare nel tempo. Ogni prodotto racconta un percorso di attenzione, sensibilità ed evoluzione: un modo autentico di "fare ceramica".

Design is a process of continuous evolution. Our ceramic surfaces are the result of a combination of aesthetics, technology and design culture: a perfect blend of research, experimentation and quality. Textures, colours, small and large sizes, slabs and different thicknesses combine to create contemporary designs that can interpret any architectural space. Stone, marble, concrete and wood effects become expressive tools for architects and designers, offering a complete range of solutions that transcend style and are designed to stand the test of time. Each product tells a story of care, sensitivity and evolution: an authentic way of 'making ceramics'.

Fliesen zu entwickeln, ist ein sich ständig wandelnder Prozess. Unsere Keramikoberflächen entstehen aus einem Konzept heraus, das Ästhetik, Technologie und Designkultur verbindet. Eine perfekte Synthese aus Forschung, Experimentierfreude und Qualität. Texturen, Farben, große und kleine Formate, Platten und unterschiedliche Stärken werden kombiniert, um moderne Projekte zu realisieren, die jedem Raum gerecht werden. Die Stein-, Marmor-, Beton- und Holzoptiken werden zu Ausdrucksmitteln der Architekten und Designer und sind in unterschiedlichsten Ausführungen und Stilen erhältlich, um schnelllebige Trends zu überdauern. Jedes Produkt erzählt von Sorgfalt, Gefühl und Fortschritt: der einzig wahren Art und Weise, Keramikfliesen herzustellen.

Le design est un processus en perpétuelle évolution. Nos surfaces céramiques sont le fruit d'un dialogue constant entre esthétique, technologie et culture du projet : une synthèse aboutie de recherche, d'expérimentation et de qualité. Textures, couleurs, petits et grands formats, dalles et épaisseurs variées se combinent pour créer des projets à l'identité contemporaine, capables d'interpréter avec justesse chaque espace architectural. Effets pierre, marbre, béton ou bois deviennent de véritables outils d'expression pour architectes et designers, au sein d'une gamme complète de solutions transversales, adaptées à tous les styles et pensées pour durer dans le temps. Chaque produit est le reflet d'un parcours fait d'attention, de sensibilité et d'évolution continue : une manière authentique de « faire de la céramique ».

DESIGN

Dinamika nasce da una ricerca interna che supera i confini della superficie. La tecnologia Deep Surface ricrea con sorprendente realismo la tridimensionalità della pietra e del marmo, restituendo alla ceramica la forza sensoriale della materia naturale. Ogni dettaglio è studiato per generare un'esperienza sensoriale immersiva e raccontare una veridicità unica grazie a una perfetta sincronia tra grafica e struttura. La luce, il tatto e la profondità cromatica dialogano in una percezione autentica, che restituisce alla materia la sua anima più vera. Dinamika è la nuova frontiera del gres porcellanato evoluto: superfici naturali, vibranti, capaci di coinvolgere il tatto e la vista, trasformano lo spazio in un paesaggio da vivere in maniera intensa ed emozionante.

Dinamika stems from internal research that goes beyond the surface. Deep Surface technology recreates the three-dimensional appearance of stone and marble with astonishing realism, giving ceramics the sensory power of natural materials. Every detail is designed to create an immersive sensory experience and convey a uniquely realistic look thanks to the perfect synchronisation between graphic design and structure. Light, touch and chromatic depth interact in an authentic perception, restoring the material to its truest essence. Dinamika is the new frontier of advanced porcelain stoneware: natural, vibrant surfaces that engage both touch and sight, transforming spaces into landscapes for intense, exciting experiences.

Dinamika ist das Ergebnis interner Forschung, welche über die Grenzen der Oberfläche hinausgeht. Mit der Deep Surface Technik lässt sich die Dreidimensionalität von Stein und Marmor erstaunlich realistisch nachempfinden, um der Keramik die sinnliche Kraft des Naturmaterials zurückzugeben. Jedes Detail ist so gestaltet, dass es die Sinne anspricht und dank dem perfekten Zusammenspiel von Grafik und Struktur für einzigartige Authentizität sorgt. Licht, Haptik und Farbtiefe interagieren miteinander, um das Wesen des Materials einzufangen und realistisch wiederzugeben. Dinamika setzt neue Maßstäbe für hochmodernes Feinsteinzeug: naturnahe, brillante Oberflächen, die optisch und haptisch gleichermaßen beeindrucken und den Raum in eine Landschaft verwandeln, die uns emotional anspricht.

Dinamika est le résultat d'une recherche interne qui va bien au-delà de la surface. La technologie Deep Surface reproduit avec un réalisme saisissant la tridimensionnalité de la pierre et du marbre, restituant à la céramique toute la puissance sensorielle de la matière naturelle. Chaque détail est conçu pour offrir une expérience immersive, où la parfaite synchronisation entre graphisme et structure révèle une vérité de matière unique. La lumière, le toucher et la profondeur chromatique dialoguent pour susciter une perception authentique, dévoilant la matière dans toute sa vérité. Dinamika incarne la nouvelle frontière du grès cérame évolué : des surfaces naturelles et vibrantes, qui sollicitent à la fois la vue et le toucher, transformant l'espace en un paysage à vivre de manière intense et émotionnelle.

Le collezioni due2 e Dinamika Outdoor rappresentano un sistema completo di superfici pensate per l'outdoor contemporaneo. Pavimenti, pezzi speciali e complementi d'arredo danno vita a spazi esterni che dialogano armoniosamente con la natura e l'architettura. Realizzato in gres porcellanato a tutta massa in 20 mm, il progetto unisce elevate prestazioni tecniche a una raffinata ricerca estetica. Resistenza, sicurezza e durata si accompagnano a superfici effetto pietra, marmo, cemento e legno, disponibili in un'ampia varietà di formati, che garantiscono continuità visiva tra interno ed esterno. The due2 and Dinamika Outdoor collections represent a complete system of surfaces designed for contemporary outdoor use. Floors, trims and furnishing accessories bring outdoor spaces to life, creating a harmonious dialogue with nature and architecture. Made of 20 mm through-body porcelain stoneware, the project combines high technical performance with sophisticated aesthetic research. Strength, safety and durability are combined with surfaces with a stone, marble, concrete and wood effect, available in a wide variety of sizes, ensuring visual continuity between indoors and outdoors. The range is completed by matching accessories and furnishings – fountains, benches, washbasins, and lamps – for an outdoor space designed as a system serving new lifestyles in public and private spaces.

Die Kollektionen due2 und Dinamika Outdoor umfassen ein komplettes Sortiment an Oberflächen für zeitgemäße Außenbereiche. Mit Bodenbelägen, Formteilen und Einrichtungselementen lassen sich Außenbereiche gestalten, die harmonisch mit der Natur und Architektur interagieren. Das durchgefärbte Feinsteinzeug mit 20 mm Stärke verbindet hervorragende technische Eigenschaften mit einer sorgfältig ausgearbeiteten Ästhetik. Die Oberflächen in Stein-, Marmor, Beton- und Holzoptik sind robust, sicher und langlebig und in einer Vielzahl unterschiedlicher Formate erhältlich. Eine visuelle Kontinuität zwischen Innen und Außen lässt sich damit sehr leicht erzielen. Vervollständigt wird das Sortiment durch abgestimmtes Zubehör und Einrichtungselemente wie Brunnen, Bänke, Waschbecken und Lampen, für Außenbereiche, die neuen Architekturkonzepten und Lebensweisen im öffentlichen und privaten Raum gerecht werden.

Les collections due2 et Dinamika Outdoor forment un système complet de surfaces conçu pour l'outdoor contemporain. Revêtements de sol, pièces spéciales et éléments d'ameublement composent des espaces extérieurs en harmonie avec la nature et l'architecture. Réalisé en grès cérame pleine masse de 20 mm d'épaisseur, le projet associe hautes performances techniques et recherche esthétique raffinée. Résistance, sécurité et durabilité s'expriment à travers des surfaces aux effets pierre, marbre, béton ou bois, proposées dans une large variété de formats, pour assurer une continuité visuelle entre intérieur et extérieur. La gamme est complétée par des accessoires et mobiliers coordonnés — fontaines, bancs, vasques, luminaires — pensés pour un outdoor conçu comme un véritable système de projet, au service de nouveaux modes de vie, dans les espaces publics comme privés.

Ceramica Faetano custodisce il valore autentico del "manufatto", un patrimonio prezioso di arte e artigianato promosso dalla Fondazione Cino Mularoni con eventi di carattere culturale e scientifico, volti a tramandare una tradizione che diventa fonte d'ispirazione per le generazioni future. Le sue origini artigianali si evolvono in una nuova concezione di prodotti che reinterpretano il piccolo formato con un linguaggio attuale, fatto di colori profondi, superfici differenti e texture materiche. Argilla, sabbia e terra si trasformano in creazioni che raccontano la bellezza imperfetta del 'fatto a mano'. Nuove finiture, smalti brillanti, decorazioni poliedriche generano giochi di luce e cromie inedite, mentre le forme morbide e fluide donano ritmo agli spazi. Un ritorno alla materia ceramica più autentica, per chi ama la bellezza che nasce dal tempo e dal gesto.

Ceramica Faetano preserves the authentic value of 'handcrafted goods', a valuable heritage of art and craftsmanship promoted by the Cino Mularoni Foundation through cultural and scientific events aimed at passing on a tradition that will become a source of inspiration for future generations. Its artisanal origins have evolved into a new concept of products that reinterpret the small size with a contemporary language, featuring deep colours, different surfaces and textured materials. Clay, sand and earth are transformed into creations that convey the imperfect beauty of the 'handmade'. New finishes, bright glazes and multifaceted decorations create unusual plays of light and colour, while soft, fluid shapes lend rhythm to spaces. A return to the most authentic ceramic material, for those who appreciate beauty that comes from time and craftsmanship.

Ceramica Faetano steht für den ursprünglichen Wert der traditionellen Handwerkskunst. Dieses kostbare kulturelle Erbe, das auch zukünftige Generationen inspirieren soll, wird mit Kultur- und Wissenschaftsveranstaltungen von der Cino Mularoni Stiftung gefördert. Die handwerklichen Ursprünge gehen in neuartigen Erzeugnissen auf, die das kleine Format mit intensiven Farben, unterschiedlichen Oberflächen und stoffbetonten Texturen zeitgemäß interpretieren. Ton, Sand und Erde verwandeln sich in Kreationen, die von der unvollkommenen Schönheit von Handgemachtem erzählen. Neue Oberflächen, brillante Glasuren und facettenreiche Dekors sorgen für Lichtspiele und neuartige Farbeffekte, während weiche, fließende Formen den Räumen einen angenehmen Rhythmus verleihen. Eine Rückkehr zu den Ursprüngen der Keramikfliesen, für eine Schönheit, die aus Zeit und Kunst entsteht.

Ceramica Faetano préserve la valeur authentique de « l'objet », héritage précieux d'art et d'artisanat, porté et transmis par la Fondation Cino Mularoni à travers des initiatives culturelles et scientifiques, afin de faire vivre une tradition qui inspire les générations futures. Ses racines artisanales évoluent aujourd'hui vers une nouvelle conception du produit, qui réinterprète le petit format dans un langage contemporain, fait de couleurs profondes, de surfaces différenciées et de textures à forte matérialité. Argile, sable et terre deviennent des créations qui racontent la beauté imparfaite du « fait main ». Nouvelles finitions, émaux lumineux et décors aux multiples facettes génèrent des jeux de lumière et des harmonies chromatiques inédites, tandis que des formes douces et fluides insufflent rythme et mouvement aux espaces. Un retour à l'essence la plus authentique de la céramique, destiné à ceux qui apprécient une beauté façonnée par le temps et le geste.

Il decoro è stato realizzato con oro giallo e materie metallizzate pertanto il fondo decorato può essere posato solo a parete. Il decoro non è resistente all'usura da sfregamento sia in fase di posa che post posa. Per la pulizia quotidiana si consiglia di utilizzare un panno umido impregnato di acqua o prodotti neutri.

The decoration was created with yellow gold and metallised materials and therefore the decorated background tiles can only be laid on walls. The decoration is not resistant to rubbing wear either during installation or post installation. For daily cleaning, it is advisable to use a wet cloth soaked in water or neutral detergents.

Das Dekor wurde mit Gelbgold und metallisierten Materien hergestellt, deshalb kann die dekorierte Bodenfliese nur an der Wand verlegt werden. Das Dekor ist sowohl bei der Verlegung als danach gegen Scheuern nicht abnutzungsbeständig. Zur täglichen Reinigung wird geraten, ein feuchtes, mit Wasser oder neutralen Reinigungsmitteln imprägniertes Tuch zu verwenden.

Le décor a été réalisé avec de l'or jaune et des matières métallisées; par conséquent, le fond décoré ne peut être posé que sur le mur. Le décor n'est pas résistant à l'usure par frottement pendant et après la pose. Pour le nettoyage quotidien, nous recommandons d'utiliser un chiffon humide imprégné d'eau ou de produits neutres.

DEL CONCA HOUSE

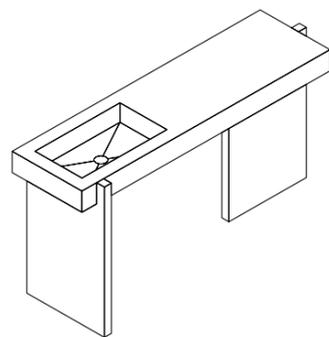

Nuove superfici ceramiche prendono forma in accordo con la natura. La ceramica è design al servizio dell'uomo. Del Conca progetta e costruisce un sistema di arredi per interni ed esterni ispirandosi alla natura, ai suoi elementi. Lavabi, tavoli, sedute, top e ampi piani di lavoro sono realizzati con grandi lastre in gres porcellanato dallo spessore sottile, una tecnologia che consente lavorazioni originali nell'ambito dell'interior design. Superfici interconnesse, da cui nascono piani e volumi traslati tra loro nello spazio per disegnare forme nuove ed esclusive.

New ceramic surfaces take shape according to nature. The ceramic material is design at the service of man. Del Conca designs and constructs a system of indoor and outdoor furnishings taking its inspiration from nature and the elements. Washbasins, tables, seats, counters and large work surfaces made from large, slimline porcelain stoneware slabs, a technology that brings original craftsmanship to the field of interior design. Interconnected surfaces that create planes and volumes which are mixed and matched in the space to design new, one-of-a-kind styles.

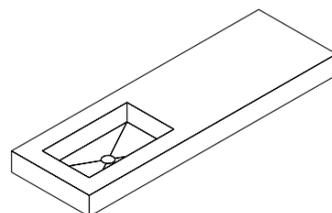

Neuartige keramische Oberflächen im Einklang mit der Natur – das ist Design im Dienste der Menschen. Del Conca entwickelt und fertigt ein Einrichtungssystem für Innen- und Außenbereiche, das sich von der Natur und allen ihren Elementen inspirieren lässt. Mit großen Feinsteinzeugplatten in geringer Stärke ausgeführte Waschbecken, Tische, Sitzelemente, Waschtische und großzügige Arbeitsplatten – eine Technologie, mit der sich originelle Projekte für die Innenraumgestaltung umsetzen lassen. So können miteinander verbundene Oberflächen geschaffen werden, die Ebenen und Bereiche mit fließenden Übergängen und neuen exklusiven Formen entstehen lassen.

Des nouvelles surfaces céramiques prennent forme en accord avec la nature. La céramique est le design au service de l'homme. Del Conca s'inspire de la nature et de ses éléments pour imaginer et pour réaliser son système déco intérieur et extérieur. Lavabos, tables, assises, plans de toilette et grandes surfaces de travail sont fabriqués avec de grandes dalles en grès cérame de fine épaisseur, une technologie qui permet de mettre en œuvre des façonnages originaux en décoration d'intérieur. Des surfaces interconnectées à partir desquelles apparaissent plans et volumes qui se déplacent dans l'espace pour dessiner des formes nouvelles et exclusives.

CARATTERISTICHE TECNICHE E NORME INTERNAZIONALI
TECHNICAL CHARACTERISTICS AND INTERNATIONAL STANDARDS
TECHNISCHE MERKMALE UND INTERNATIONALE NORMEN
CARACTERISTIQUES TECHNIQUES ET NORMES INTERNATIONALES

Le nostre piastrelle di 1° scelta sono prodotte e scelte in base alla normativa europea EN ed internazionale ISO. Questa significa che il 95% delle piastrelle contenute nelle confezioni di prima scelta devono avere caratteristiche d'aspetto conformi alla norma; pertanto non devono essere perfette (cosa impossibile per un qualunque prodotto industriale) ma devono avere delle tolleranze contenute entro i limiti della norma.

Queste tolleranze e quelle relative alle altre caratteristiche fisiche e chimiche del prodotto sono riportate in calce. La valutazione dell'aspetto della piastrella deve essere fatta osservandola perpendicolarmente da 1 m. di distanza. I difetti delle piastrelle possono essere di due tipi: palesi (visibili già prima della posa, come differenza di tonalità, difetti di superficie, rotture, ecc.) o occulti (non visibili prima della posa).

I difetti palesi vanno contestati solo prima della posa. Questo consente al produttore di sostituire eventualmente il materiale difettoso. Qualora l'acquirente o l'installatore decidano comunque la messa in opera, la responsabilità del produttore decade. La responsabilità per difetti occulti, purché contestati entro i termini di legge, è del produttore.

Our 1st choice tiles are manufactured and selected according to European EN and International ISO regulations. This means that 95% of the contents of first choice must have appearance characteristics corresponding to the standards.

Therefore they must not be perfect (which is impossible for any industrial product) but must have tolerances comprised within the standard limits. These tolerances and those concerning the other physical and chemical characteristics of the product are reported below.

The appearance valuation of the tile must be done examining it (perpendicularly) from 1 meter of distance.

Defects of tiles can be of two types: noticeable (already visible before laying, such as color differences, surface defects, fractures, etc) or hidden (not visible before laying). Complaints about noticeable defects may be made only before tiles are laid, allowing the producer to replace any faulty material. However, if the buyer or tile layer decides to proceed with laying, the responsibility of the producer is invalidated.

Responsibility for hidden defects, if these are notified within the legal time limits, lies the producer.

Unsere Produkte in 1. Sortierung entsprechen den Europaischen EN- und den internationalen ISO-Normen. Dies bedeutet, daß 95% des Inhaltes einer als "erste Wahl" deklarierten Verpackungseinheit im Aussehen der Norm entsprechen sollen, also nicht perfekt sein müssen (unerreichbar für jegliches industriell hergestellte Produkt), jedoch Toleranzen innerhalb der von der Norm vorgelegten Limita aufweisen dürfen.

Diese Toleranzen, sowie jene bezogen auf weitere physikalische und chemische Eigenschaften des Produktes werden nachfolgend aufgeführt. Das Aussehen der Fliesen sollte beurteilt werden wenn man sie in 1 m. Entfernung in Senkrechter position betrachtet. Fliesen können Mängel zweierlei Typs aufweisen: offensichtliche, schon vor dem Verlegen zu bemerkende Mängel, wie Tonalität-differenzen, Oberflächenfehler, Bruch usw... sowie versteckte, nicht vor der Verarbeitung zu bemerkende Mängel. Offensichtliche Mängel sind vor dem Verlegen zu beanstanden. Dies erlaubt dem Hersteller eventuell das Mängel aufweisende Material zu ersetzen. Sollten der Käufer oder der Fliesenleger sich dennoch für eine Verlegung des zu bemängelnden Materiales entscheiden, entfaellt die Verantwortung des Produzenten. Verantwortung für versteckte Mängel trägt der Hersteller, jedoch nur bei Beanstandung im Rahmen der gesetzlichen Fristen.

Nos carreaux de 1er choix sont produits et choisis en fonction des normes européennes EN et des normes internationales ISO. Ceci signifie que 95% des carreaux contenus dans les conditionnements de 1er choix doivent avoir les caractéristiques d'aspect conformes aux normes. Ils ne doivent donc pas être parfaits (chose impossible pour tout produit industriel) mais ils doivent avoir des tolérances contenues dans les limites des normes. Ces tolérances et celles relatives aux autres caractéristiques physiques et chimiques du produit sont reportées ci-dessous. L'évaluation de l'aspect du carreau doit être faite en observant celui-ci (perpendiculairement) à un mètre de distance. Les défauts des carreaux peuvent être de deux types: visibles (déjà avant la pose, comme différences de tonalité, défauts de surface, rupture, etc...) ou cachés (non visibles avant la pose). Les défauts visibles ne peuvent être contestés qu'avant la pose. Ceci consent au producteur de remplacer éventuellement le matériel défectueux. Au cas où l'acheteur ou le carreleur décide quand même l'installation, le producteur n'est plus responsable.

La responsabilité pour défauts cachés est celle du producteur, à condition que la marchandise soit contestée dans les délais légaux.

CONSIGLI PER L'IMPIEGO • RECOMMENDATIONS FOR USE • EMPFEHLUNGEN FÜR DEN GEBRAUCH • CONSEILS POUR L'EMPLOI

I risultati delle prove di laboratorio non sono sufficienti a determinare la durata di un pavimento. A parità di calpestio essa è influenzata oltre che dalle caratteristiche tecniche del prodotto, anche dal luogo di impiego e della maggiore o minore presenza di sostanze abrasive. Pertanto consigliamo di scegliere il prodotto con le caratteristiche di resistenza all'usura sufficienti all'utilizzo in base allo schema che segue ma anche di proteggere, ad esempio con l'utilizzo di zerbini, i pavimenti dalla presenza di sabbia o sostanze graffianti.

No laboratory test, however efficient it may be, is sufficient to determine the durability of a product. Apart from the obvious factor of the number of foot contacts, durability can also be influenced by the technical characteristics of the product, the place of installation and the possible presence of abrasive agents. We therefore recommend not only that products should be chosen with resistance characteristics that are sufficient for the intended use, as shown in the following chart, but also that wherever necessary, floors should be protected against sand, grit and other abrasives by the use, for example, of mats.

Die Resultate von Laborversuchen reichen nicht aus, um die Lebensdauer eines Fußbodens zu bestimmen. In gleichem Maße wie durch Begehung, ist er - außer durch die technischen Charakteristiken des Produktes - auch durch den Verwendungsort und die dort vorhandene größere oder geringere Menge schleifender Substanzen beeinflusst. Deshalb empfehlen wir die Auswahl des Produktes nach solchen Haltbarkeitscharakteristiken, wie sie das folgende Schema darlegt, und außerdem, die Fußböden z. B. durch Gebrauch von Fußmatten vor Sand oder kratzenden Substanzen zu schützen.

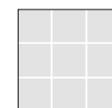

Les résultats des essais de laboratoire ne peuvent à eux seuls déterminer la durée d'un pavement. A parité de passage, celle-ci, outre à dépendre des caractéristiques techniques du produit, dépend aussi du lieu d'emploi et de la présence plus ou moins importante de substances abrasives. Pour cela, nous conseillons de choisir le produit présentant des caractéristiques de résistance à l'usure en rapport avec l'utilisation à laquelle il est destiné sur la base du schéma reporté ci-après et de protéger les pavements, à l'aide de paillasons ou autre, du sable ou de toute substance pouvant les rayer.
