## Subject: FLO Toilet Seat Model Update – Introduction of the New FLAT Model

*Dear Customers,  
Dear Agents,*

We would like to inform you that, starting from **September 2025**, the current toilet seat model supplied with the FLO line, the SLIM model in thermosetting resin (item codes: 319101 – 319130 – 319131 – 319159), will be replaced by the **new FLAT model**.

The change exclusively concerns the **seat cover design**: the new FLAT model features a more essential and contemporary look, without the curved rear section characteristic of the current version.

This evolution reflects our commitment to align with the **latest design trends**, which favor clean, minimal, and visually light forms, in response to growing demand in both residential and contract markets.

The new FLAT toilet seat will retain the **same quality and functional characteristics** as the current model, as well as the **same list price**.

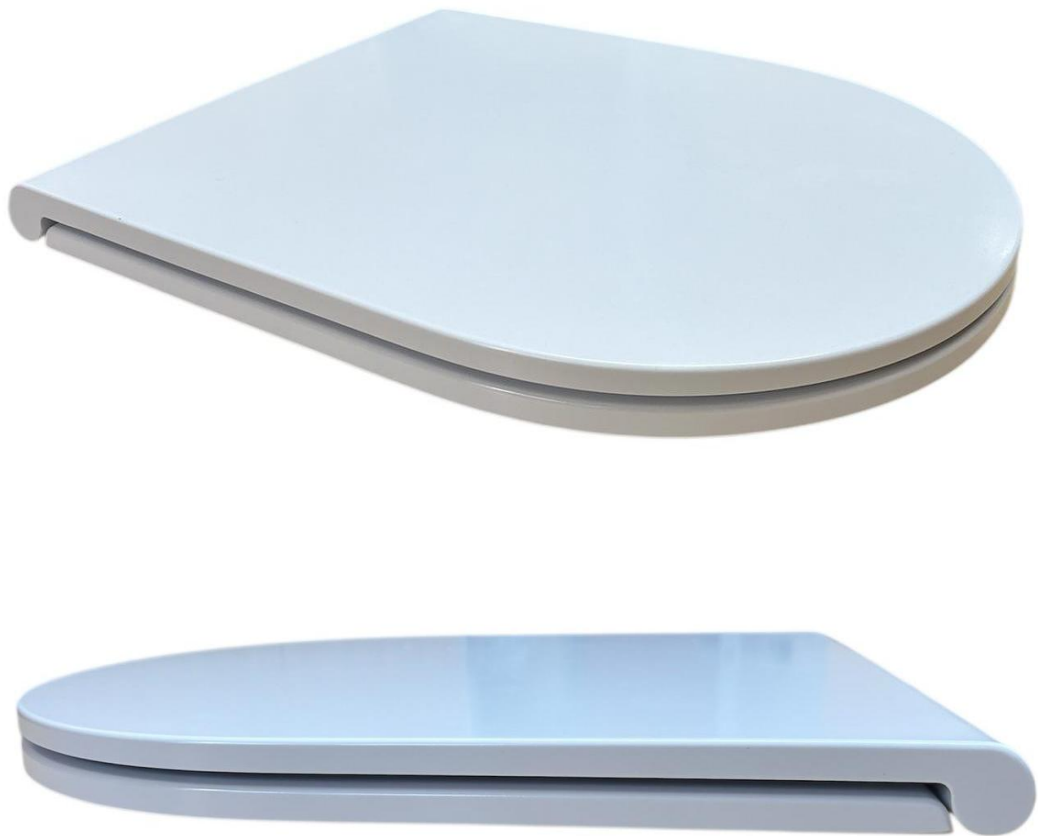

### Technical features of the FLAT model:

- Thermosetting Urea seat
- Soft-close steel hinges
- Quick-release system
- Modern flat design with clean and elegant lines (without the rise in the rear part)

Below the new item codes:

319101N	Glossy White
319130N	Matt white
319131N	Matt black
319159N	Matt grey
