1961

Nel 1961, nasceva Rondine S.p.A, nucleo fondante dell'attuale Ceramica Rondine, leader internazionale nella produzione di ceramiche per pavimenti, rivestimenti e battiscopa in gres porcellanato.

1961 saw the foundation of Rondine S.p.A., the core that grew into today's leader Ceramica Rondine, in the production of porcelain stoneware tiles for floors, walls and skirtings.

2005

È del maggio 2005 l'acquisizione di SprayDry, azienda sassolese produttrice di atomizzato, che consente a Ceramica Rondine di compiere un importante salto di qualità realizzando in questo modo l'intero ciclo produttivo della piastrella.

May 2005 saw the acquisition of SprayDry, a Sassuolo company that produces porcelain stoneware bodies, thus allowing Ceramica Rondine to make a major leap forward in terms of quality by covering the full tile production cycle in its own plants.

2010

Sadon, azienda leader nella produzione di piccoli formati in gres porcellanato, entra in Ceramica Rondine nel 2010, segnando un'ulteriore e preziosa svolta nella storia di Ceramica Rondine.

Sadon, a leading company in the production of porcelain stoneware small-size tiles, joined the Ceramica Rondine in 2010, marking a further important turning point in the history of Ceramica Rondine.

2015

A gennaio 2015 si concretizzano importanti investimenti con l'ampliamento di un'unità produttiva, con una nuova linea per la movimentazione dei grandi formati, macchine per la scelta automatica e linee di confezionamento di ultima generazione.

In January 2015, significant investments were made, with the extension of a production facility, new lines for handling large sizes, automatic sorting lines and latest-generation packing lines.

2016-2017

Nel 2016 sono stati previsti importanti investimenti che si sono concretizzati nei primi mesi del 2017. Questi investimenti hanno potenziato e ottimizzato i processi produttivi, permettendo così anche la produzione di grandi formati, dall' 80x80 al 120x120 e la possibilità di una maggior competitivita' sui mercati internazionali.

In 2016 extensive investments were planned and implemented in early 2017. These investments increased and optimised the production processes, thus also leading to the production of large sizes, from 80x80 to 120x120, and allowed the company to increase its competitive performance on international markets.

2018

Nell'ottobre 2018 Italcer Group, (Mandarin Capital Partners II e Graziano Verdi) ha completato l'acquisizione del 100% di Ceramica Rondine. Questa acquisizione segue quelle di La Fabbrica S.p.A., Elios Ceramica S.p.A. e Devon&Devon S.p.A., concluse nel 2017. Con Ceramica Rondine, il Gruppo Italcer si va a posizionare, con 200 milioni di euro di fatturato aggregato, ai primi posti tra gli operatori italiani del settore.

In October 2018 Italcer Group, (Mandarin Capital Partners II and Graziano Verdi) completed the 100% takeover of Ceramica Rondine. This acquisition follows those of La Fabbrica Spa, Elios Ceramica Spa and Devon&Devon Spa, which were completed in 2017. With Rondine, the Italcer Group, with aggregate turnover of 200 million EUR, among first places in the league table of Italian ceramics manufacturers.

2020

Il 2020 porta in dote l'acquisizione di Cedir – Ceramiche di Romagna, un' azienda storica del territorio Ravennate che va ad ampliare il polo Romagnolo del gruppo. Viene anche presentata l'innovativa tecnologia ADVANCE, una ceramica che grazie alle sue proprietà antivirali, antibatteriche e antinquinanti, garantisce una maggiore protezione delle superfici e ambienti più salubri. Secondo quanto certificato e riportato sul nostro https://www.advanceceramic.it/

2020 marked the acquisition of Cedir – Ceramiche di Romagna, a historic company from the Ravenna area, further strengthening the Group's Romagna hub. The innovative ADVANCE technology was also introduced: a ceramic material which, thanks to its antiviral, antibacterial, and anti-pollution properties, ensures greater surface protection and healthier environments. As certified and reported on our website: https://www.advanceceramic.it/

2021

A marzo 2021 Italcer acquisisce Equipe Cerámicas, azienda ceramica spagnola leader a livello mondiale specializzata in piccoli formati con sede a Figueroles (Castellón).

On March, 2021 Italcer acquires Equipe Cerámicas, a Spanish global leading ceramic company specialized in small formats headquartered in Figueroles (Castellón).

2022

A Ottobre 2022 Italcer completa il suo portafoglio prodotti, formati che vanno dal 10x10 cm al 160x320 cm attraverso l'acquisizione di Ceramica Fondovalle, leader mondiale delle grandi lastre con sedi a Marano sul Panaro e Ubersetto.

In October 2022, Italcer has completed its product portfolio, formats ranging from 10x10 cm to 160x320 cm through the acquisition of Ceramica Fondovalle, a world leader in large slabs located in Marano sul Panaro and Ubersetto.

2023

A fine 2023 Italcer si espande aggiungendo al Gruppo anche Terratinta, completando così un'ampia gamma di prodotti offerti.

At the end of 2023, Italcer expands by adding Terratinta to the Group, thus completing a wide range of product offerings.

2024

Ceramica Rondine inaugura il nuovo spazio espositivo denominato Design Gallery.
E' l'inizio di un percorso ricco di opportunità, un'esperienza immersiva alla scoperta delle collezioni firmate Ceramica Rondine in oltre 2.000 mq.

Ceramica Rondine proudly inaugurates its new exhibition space, the Design Gallery. This marks the beginning of a journey filled with opportunities—an immersive experience to explore the Ceramica Rondine collections across more than 2,000 square meters.

ADVANCE®

antibacterial & bio-air purifying

ADVANCE® è una ceramica da pavimento e rivestimento eco-compatibile in gres porcellanato, realizzata in primo ed unico fuoco, ad oltre 1200 gradi di cottura e con il 40% di materie prime riciclate, adatta sia per soluzioni residenziali che non residenziali.
L'innovativa tecnologia Advance® grazie alle sue proprietà antivirali, antibatteriche e fotocatalitiche è capace di proteggere maggiormente gli ambienti che ci circondano rendendoli più salubri e riducendo significativamente l'inquinamento.

ADVANCE® porcelain floor and wall tiles can be used for residential and non-residential solutions. They are made of eco-friendly and single-fired (over 1,200 degrees) porcelain stoneware and of 40% recycled raw materials.
Thanks to its antiviral, antibacterial and photocatalytic properties, the innovative ADVANCE® technology is able to improve protection in the environment around us, making it healthier and reducing significantly pollution.

ADVANCE® est une céramique pour sol et mur en grès cérame respectueuse de l'environnement, réalisée en première et unique cuisson cuit à plus de 1200 degrés et composée à 40 % de matières premières recyclées. Elle s'adapte aussi bien aux espaces résidentiels qu'aux autres espaces.
Ses propriétés antivirales, antibactériennes et photocatalytiques permettent à la technologie innovante Advance® de mieux protéger les espaces qui nous entourent en les assainissant et en réduisant la pollution de manière significative.

ADVANCE® steht für umweltfreundliche Bodenbeläge und Wandverkleidungen aus Feinsteinzeug. Dieses Feinsteinzeug wird im Einbrandverfahren bei einer Brenntemperatur von über 1200 Grad hergestellt. Advance® besteht zu 40 % aus recycelten Materialien und es ist sowohl für den Wohnbereich als auch für gewerbliche Anwendungen geeignet.
Die innovative Technologie von Advance® ist dank ihrer antiviralen, antibakteriellen und photokatalytischen Eigenschaften in der Lage, unsere Umgebung gesünder zu machen und die Schadstoffbelastung erheblich zu reduzieren.

3 - RIDUCE INQUINAMENTO ATMOSFERICO

UNI 11484

CERTIFICATO DEL DIPARTIMENTO DI CHIMICA
UNIVERSITÀ DI TORINO

-20,7% de NO_x

Converte le sostanze inquinanti volatili in sostanze innocue.

Le proprietà antinquinanti del gres ADVANCE® migliorano anche la qualità dell'aria che respiriamo.
La produzione industriale, l'utilizzo di impianti di climatizzazione e dei mezzi di trasporto, emettono nell'aria sostanze inquinanti. **ADVANCE®** applicata in esterno, nelle pavimentazioni Outdoor, sulle facciate di abitazioni e palazzi, **riesce a diminuire le molecole di NO_x** (Ossidi di Azoto) **del 20,7%** (come attestato dall'Università di Torino) in sole tre ore, permettendo di migliorare notevolmente la qualità dell'aria grazie all'azione fotocatalitica che si attiva alla luce naturale.

Ogni soluzione outdoor progettata con ADVANCE® **contribuisce a migliorare l'ambiente che ci circonda.**

Una tecnologia sicura per la nostra salute e una scelta sostenibile e attenta all'ambiente, in quanto realizzata in un'unica cottura ad altissima temperaura, senza perciò la necessità di ulteriori trattamenti e relativi impatti sull'ambiente.

3 - REDUCTION OF ATMOSPHERIC POLLUTION
Transforms volatile pollutants into harmless substances
The anti-pollution properties of ADVANCE® stoneware also improve the quality of the air we breathe.
Industrial production, the use of air conditioning systems and vehicles emit pollutants into the atmosphere.
ADVANCE® used outdoors on the façades of buildings and apartment blocks, reduces NO_x (nitrogen oxide) molecules by 20.7% (as attested by the University of Turin) in just three hours, considerably improving air quality thanks to the photocatalytic action activated by natural light.
Each outdoor solution designed using ADVANCE® contributes towards improving the environment around us.
The technology is not only safe for our health, but it is also a sustainable choice that takes care of the environment thanks to the single firing at a very high temperature, and because no further treatments are required and it has no further impact on the environment.

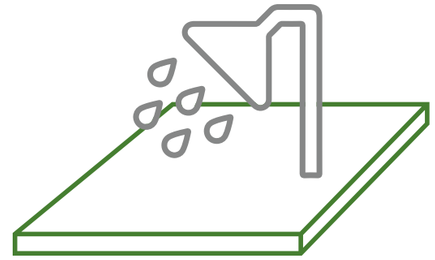

3 - RÉDUCTION DE LA POLLUTION ATMOSPHÉRIQUE
Transforme les polluants volatils en substances inoffensives
Les propriétés antipollution du grès ADVANCE® améliorent également la qualité de l'air que nous respirons.
La production industrielle, l'usage de systèmes de climatisation et l'utilisation des moyens de transport émettent des polluants atmosphériques. La technologie ADVANCE®, appliquée sur les façades extérieures des habitations et des bâtiments, permet de réduire la concentration de molécules de NO_x (oxydes d'azote) de 20,7 % (comme l'a confirmé l'Université de Turin) en seulement trois heures, ce qui permet d'améliorer de façon considérable la qualité de l'air grâce à l'action photocatalytique qui s'active à la lumière naturelle.
Les espaces extérieurs conçus avec ADVANCE® permettent d'améliorer l'environnement qui nous entoure.
En plus d'être sûre pour notre santé, la technologie représente également un choix durable et respectueux de l'environnement étant donné qu'elle est réalisée lors d'une cuisson unique à très haute température et qu'elle ne nécessite pas de traitements ultérieurs : elle n'engendre donc pas d'impacts supplémentaires sur l'environnement.

3 - REDUZIERTE UMWELTVERSCHMUTZUNG
Flüchtige Schadstoffe werden in unbedenkliche Stoffe umgewandelt.
Die schadstoffmindernden Eigenschaften des Feinsteinzeugs ADVANCE® verbessern auch die Qualität unserer Atemluft.
Die industrielle Produktion, der Einsatz von Klimaanlagen und die Transportmittel tragen zum Ausstoß von Schadstoffen in die Luft bei. Durch die Verwendung von ADVANCE® in Außenbereichen, an den Fassaden von Wohnungen und Gebäuden, können die NO_x-Moleküle (Stickstoffoxid) in nur drei Stunden um 20,7% reduziert werden (laut Bescheinigung der Universität Turin). Durch die von natürlichem Licht aktivierte photokatalytische Wirkung kann die Qualität der Luft so beachtlich verbessert werden.
Alle mit ADVANCE® realisierten Outdoor-Lösungen tragen zu einer Verbesserung unserer Umwelt bei.
Diese Technologie ist nicht nur sicher für unsere Gesundheit, sondern auch eine nachhaltige und umweltfreundliche Entscheidung, da sie einen einzigen Brennvorgang bei extrem hohen Temperaturen vorsieht, ohne Notwendigkeit nachfolgender Behandlungen und damit ohne weitere Umweltauswirkungen.

4 - COMBATTE LO SPORCO

Riduce la necessità di detergenti chimici.

Lo sporco si disgrega sulle superfici ceramiche ADVANCE® e ciò permette di mantenere puliti i pavimenti e i rivestimenti tramite il solo utilizzo di acqua e sapone neutro. Per i pavimenti esterni lo scorrere dell'acqua piovana è sufficiente per garantirne la pulizia.

4 - FIGHTS DIRT
Reduces the use of chemical detergents.
Dirt disintegrates on the surface of ADVANCE® tiles, floors and walls can be kept clean by just washing with a neutral soap and water. For outdoor floors, the flow of rainwater is enough to guarantee cleanliness.

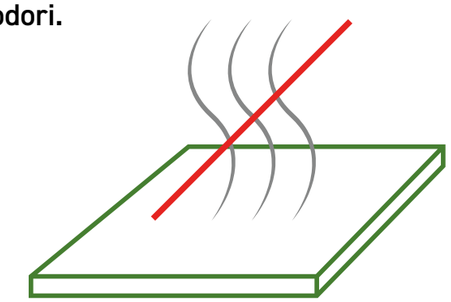

4 - COMBAT LA SALETÉ
Réduit le recours aux détergents chimiques.
La saleté se décompose sur les surfaces en céramique ADVANCE®, ce qui permet de conserver un sol et des murs propres en les lavant uniquement à l'eau et au savon doux. Pour les sols extérieurs, l'écoulement de l'eau de pluie suffit à garantir une propreté optimale.

4 - BEKÄMPFT SCHMUTZ
Reduziert den Einsatz chemischer Reinigungsmittel.
Der Schmutz zersetzt sich auf den Keramikoberflächen von ADVANCE®. So können Bodenbeläge und Wandverkleidungen einfach mit Wasser und einem neutralen Reinigungsmittel sauber gehalten werden. Bei Bodenbelägen im Außenbereich garantiert bereits das Abfließen von Regenwasser eine ausreichende Reinigung.

5 - ATTENUA I CATTIVI ODORI

Trasforma le molecole organiche riducendo i cattivi odori.

Come per gli NO_x, le molecole fonti di cattivi odori si decompongono non appena entrano in contatto con la superficie, attenuandone così l'effetto odorigeno.

5 - REDUCES BAD ODORS
Transforms organic compounds and reduces bad odors.
Furthermore, as for NO_x molecules, the molecules that cause bad odours decompose as soon as they come into contact with the surface, thus mitigating any malodorous effect.

5 - RÉDUIT LES MAUVAISES ODEURS
Transforme les composés organiques et réduit les mauvaises odeurs.
Comme pour les NO_x, les composés à l'origine des mauvaises odeurs se décomposent dès qu'ils entrent en contact avec la surface, réduisant ainsi les mauvaises odeurs.

5 - HEMMT ÜBLE GERÜCHE
Verwandelt organische Moleküle und reduziert so üble Gerüche.
Ebenso wie die NO_x-Moleküle zersetzen sich auch die für üble Gerüche verantwortlichen Moleküle, sobald sie mit der Oberfläche in Kontakt kommen und hemmen somit die Geruchsbildung.

WALL X
TECHNOLOGY MEETS DESIGN

Tecnologia sottile, estetica evoluta.
Per un design che emoziona.

WallX è l'innovativa tecnologia esclusiva firmata **Gruppo Italcer**, pensata per ridefinire il concetto di rivestimento ceramico. Un progetto all'avanguardia che coniuga estetica raffinata e performance tecniche elevate, superando i limiti dei materiali tradizionali e aprendo la strada a una nuova generazione di superfici. Il nome **WallX** nasce per comunicare, con immediatezza, la sua identità: **Wall**, la destinazione d'uso. **X**, il simbolo della variabile, dell'evoluzione e dell'adattabilità. Ma **X** è anche il punto di incrocio tra due dimensioni fondamentali del nostro lavoro: la tecnologia e l'estetica. Un'intersezione in cui la precisione tecnica incontra il linguaggio del design. Una linea invisibile che lega ciò che serve e ciò che emoziona. Con uno spessore ridotto di soli **7 mm**, **WallX** permette di realizzare rivestimenti leggeri, maneggevoli e ad alte prestazioni. La sua peculiarità, però, non si limita agli aspetti tecnici: ciò che lo rende davvero unico è la resa estetica. Colori intensi e brillanti, texture eleganti, rilievi ricchi di dettaglio e decori finemente eseguiti in primo fuoco danno vita a una ceramica evoluta, capace di valorizzare con stile qualsiasi ambiente, dal residenziale agli spazi pubblici e commerciali. Ad oggi, Italcer è l'unico gruppo a proporre un grès porcellanato che unisce in modo esclusivo leggerezza, resistenza e qualità decorativa. Un posizionamento distintivo che rappresenta un reale vantaggio per i progettisti più esigenti.

WALL X TECHNOLOGY MEETS DESIGN	✓	✓	✓	✓	✓	✓

Thin technology, evolved aesthetics.
For a design that inspires.

WallX is the innovative and exclusive technology developed by **Gruppo Italcer**, designed to redefine the concept of ceramic wall covering. An avant-garde project that combines refined aesthetics with high technical performance, overcoming the limits of traditional materials and paving the way for a new generation of surfaces. The name **WallX** was created to immediately convey its identity: **Wall**, its intended application. **X**, the symbol of variability, evolution, and adaptability. But X is also the meeting point of two fundamental dimensions of our work: technology and aesthetics. An intersection where technical precision meets the language of design. An invisible line that connects what is necessary with what is emotional. With a reduced thickness of just **7 mm**, **WallX** allows the creation of lightweight, manageable, and high-performance coverings. However, its uniqueness is not limited to technical features: what truly sets it apart is its aesthetic value. Intense and vibrant colors, elegant textures, finely detailed reliefs, and expertly executed first-fire decorations give life to an evolved ceramic surface capable of enhancing any environment with style, from residential spaces to public and commercial settings. To date, Italcer is the only group to offer a porcelain stoneware product that uniquely combines lightness, durability, and decorative quality. A distinctive positioning that offers a real advantage to the most demanding designers.

Technologie fine, esthétique évoluée.
Pour un design qui émeut.

WallX est la technologie innovante et exclusive développée par le **Groupe Italcer**, conçue pour redéfinir le concept de revêtement céramique. Un projet avant-gardiste qui allie esthétique raffinée et performances techniques élevées, dépassant les limites des matériaux traditionnels et ouvrant la voie à une nouvelle génération de surfaces. Le nom **WallX** a été créé pour communiquer immédiatement son identité : **Wall**, sa destination d'usage. **X**, le symbole de la variabilité, de l'évolution et de l'adaptabilité. Mais X est aussi le point de rencontre de deux dimensions fondamentales de notre travail : la technologie et l'esthétique. Une intersection où la précision technique rencontre le langage du design. Une ligne invisible qui relie ce qui est nécessaire à ce qui émeut. Avec une épaisseur réduite de seulement **7 mm**, **WallX** permet la création de revêtements légers, maniables et haute performance. Toutefois, son originalité ne se limite pas aux aspects techniques : ce qui le distingue vraiment, c'est sa valeur esthétique. Des couleurs intenses et vibrantes, des textures élégantes, des reliefs finement détaillés et des décors exécutés avec maîtrise en première cuisson donnent vie à une surface céramique évoluée capable de valoriser avec style tout environnement, des espaces résidentiels aux espaces publics et commerciaux. À ce jour, Italcer est le seul groupe à proposer un grès cérame qui combine de manière exclusive légèreté, résistance et qualité décorative. Un positionnement distinctif qui représente un véritable avantage pour les concepteurs les plus exigeants.

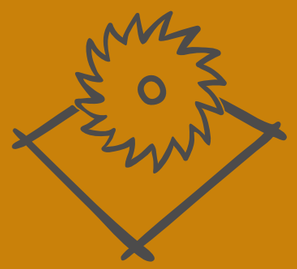

Dünne Technologie, weiterentwickelte Ästhetik.
Für ein Design, das begeistert.

WallX ist die innovative und exklusive Technologie der **Italcer-Gruppe**, entwickelt, um das Konzept der keramischen Wandverkleidung neu zu definieren. Ein zukunftsweisendes Projekt, das raffinierte Ästhetik mit hoher technischer Leistung verbindet, die Grenzen traditioneller Materialien überwindet und den Weg für eine neue Generation von Oberflächen ebnet. Der Name **WallX** wurde geschaffen, um seine Identität sofort zu kommunizieren: **Wall**, der Verwendungszweck. **X**, das Symbol für Variable, Evolution und Anpassungsfähigkeit. Aber X ist auch der Schnittpunkt zweier grundlegender Dimensionen unserer Arbeit: Technologie und Ästhetik. Eine Schnittstelle, an der technische Präzision auf die Sprache des Designs trifft. Eine unsichtbare Linie, die das Notwendige mit dem Emotionalen verbindet. Mit einer reduzierten Stärke von nur **7 mm** ermöglicht **WallX** die Herstellung leichter, handlicher und leistungsstarker Verkleidungen. Seine Einzigartigkeit beschränkt sich jedoch nicht nur auf technische Merkmale: Was es wirklich auszeichnet, ist sein ästhetischer Wert. Intensive und lebendige Farben, elegante Texturen, fein detaillierte Reliefs und meisterhaft ausgeführte Dekore im Erstbrand verleihen einer fortschrittlichen keramischen Oberfläche Leben, die jeden Raum stilvoll aufwertet, von Wohnräumen bis zu öffentlichen und gewerblichen Bereichen. Bis heute ist Italcer die einzige Gruppe, die einen Feinsteinzeugbelag anbietet, der auf einzigartige Weise Leichtigkeit, Widerstandsfähigkeit und dekorative Qualität vereint. Eine unverwechselbare Positionierung, die einen echten Vorteil für die anspruchsvollsten Planer darstellt.

PERCHÉ SCEGLIERE WALL**X** PER I TUOI AMBIENTI

Why choose WallX for your spaces
Pourquoi choisir WallX pour vos espaces
Warum WallX für Ihre Räume wählen

SCHEDE TECNICHE:
Technical Data Sheets:
Fiches techniques:
Technische Datenblätter:

STESSA LAVORABILITÀ, DELLA PASTA BIANCA

WallX consente tagli, fori e scassi con la stessa facilità della pasta bianca, ma riduce drasticamente il rischio di rotture in cantiere e durante la movimentazione.

SAME WORKABILITY AS WHITE PASTE

WallX allows cuts, holes, and recesses with the same ease as white paste,but drastically reduces the risk of breakage on site and during handling.

MÊME MANIABILITÉ QUE LA PÂTE BLANCHE

WallX permet de couper, percer et réaliser des encoches avec la même facilité que la pâte blanche,
tout en réduisant drastiquement le risque de casse sur chantier et lors de la manutention.

GLEICHVERARBEITUNGSVERMÖGEN WIE WEISSE PASTE

WallX ermöglicht Schnitte, Löcher und Aussparungen mit der gleichen Leichtigkeit wie weiße Paste, reduziert jedoch drastisch das Risiko von Brüchen auf der Baustelle und bei der Handhabung.

TUTTA LA RESISTENZA DEL GRES PORCELLANATO

Resistenza notevole a urti, usura, graffi, umidità, macchie e agenti chimici domestici: ideale per bagno, cucina e spazi ad alto calpestio.

ALL THE STRENGTH OF PORCELAIN STONEWARE

Remarkable resistance to impacts, wear, scratches, moisture, stains, and household chemicals: ideal for bathrooms, kitchens, and high-traffic areas.

TOUTE LA RÉSISTANCE DU GRÈS CÉRAME

Résistance remarquable aux chocs, à l'usure, aux rayures, à l'humidité, aux taches et aux agents chimiques domestiques : idéale pour la salle de bain, la cuisine et les zones à fort passage.

ALLE WIDERSTANDSKRAFT VON FEINSTEINZEUG

Außergewöhnliche Beständigkeit gegen Stöße, Abnutzung, Kratzer, Feuchtigkeit, Flecken und haushaltsübliche Chemikalien: ideal für Bad, Küche und stark frequentierte Bereiche.

ADATTABILE ANCHE AI PAVIMENTI

Tecnologia applicabile a tutte le superfici, non solo a rivestimento ma anche a pavimento, compatibile con sistemi di riscaldamento a pavimento.

ALSO SUITABLE FOR FLOORING

Technology applicable to all surfaces, not only wall coverings but also flooring, and compatiblewithunderfloorheatingsystems.

ADAPTABLE AUSSI AUX SOLS

Technologie applicable à toutes les surfaces, non seulement aux revêtements muraux mais aussi aux sols, compatible avec les systèmes de chauffage par le sol.

AUCH FÜR FUSSBÖDEN GEEIGNET

Technologie, die auf allen Oberflächen anwendbar ist - nicht nur für Wandverkleidungen, sondern auch für Böden - und mit Fußbodenheizungssystemen kompatibel.

EFFICIENZA LOGISTICA E RIDUZIONE DEGLI SPRECHI

WallX garantisce meno fragilità, meno rotture e di conseguenza riduce problematiche sui cantieri.

LOGISTICS EFFICIENCY AND WASTE REDUCTION

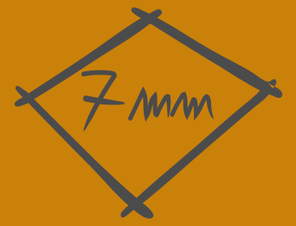

WallX guarantees less fragility, fewer breakages and consequently reduces issues on construction sites.

EFFICACITÉ LOGISTIQUE ET RÉDUCTION DES DÉCHETS

WallX garantit une fragilité moindre, moins de casses et, par conséquent, réduit les problèmes sur les chantiers.

LOGISTISCHE EFFIZIENZ UND ABFALLREDUZIERUNG

WallX gewährleistet eine geringere Fragilität, weniger Bruchschäden und reduziert dadurch Probleme auf Baustellen.

GRÈS PORCELLANATO SOTTILE

Con solo **7 mm** di spessore, **WallX** garantisce rivestimenti e pavimenti leggeri, pratici e resistenti.

THIN PORCELAIN STONEWARE

With only 7 mm thickness, WallX guarantees lightweight, practical, and durable coverings and floors.

GRÈS CÉRAME FIN

Avec seulement 7 mm d'épaisseur, WallX garantit des revêtements muraux et de sol légers, pratiques et résistants.

DÜNNES FEINSTEINZEUG

Mit nur 7 mm Stärke gewährleistet WallX leichte, praktische und widerstandsfähige Wand- und Bodenbeläge.

ESTETICA SUPERIORE

Superfici brillanti, strutture raffinate e decori precisi, tutti realizzati in primo fuoco, per un impatto visivo unico.

SUPERIOR AESTHETICS

Shiny surfaces, refined textures, and precise decorations, all made in first firing, for a unique visual impact.

ESTHÉTIQUE SUPÉRIEURE

Surfaces brillantes, structures raffinées et décors précis, tous réalisés en première cuisson, pour un impact visuel unique.

HÖHERE ÄSTHETIK

Glänzende Oberflächen, raffinierte Strukturen und präzise Dekore, alle in Erstriss gefertigt, für einen einzigartigen visuellen Eindruck.

" Ceramica Rondine ha lanciato per prima sul mercato il gres porcellanato effetto mattone. Brick Generation, è una perfetta sintesi di contemporaneità e fascino atemporale. Parliamo infatti di un rivestimento che riproduce con impressionante fedeltà la superficie e la resa tattile del mattone. La sua ruvidità, un'intensità materica senza precedenti, viene proposta e declinata in un'ampia tavolozza cromatica che fa rivivere l'affascinante essenza del mattoncino. "

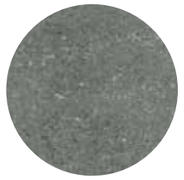

Ceramica Rondine was the first to launch brick-effect porcelain stoneware on the market.
Brick Generation is a perfect synthesis of contemporaneity and timeless appeal. It is a wall covering that reproduces with impressive fidelity both the surface and the tactile feel of traditional brick.
Its roughness and unprecedented material intensity are expressed through a wide chromatic palette that brings the captivating essence of brick back to life.

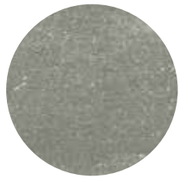

Ceramica Rondine a été la première à lancer sur le marché le grès cérame effet brique.
Brick Generation représente une parfaite synthèse entre contemporanéité et charme intemporel. Il s'agit d'un revêtement capable de reproduire avec une fidélité impressionnante la surface et le rendu tactile de la brique.
Sa rugosité et son intensité matérielle sans précédent s'expriment à travers une large palette chromatique qui fait revivre l'essence fascinante du petit briquet.

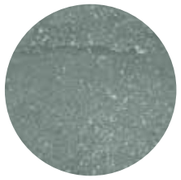

Ceramica Rondine war das erste Unternehmen, das Feinsteinzeug in Ziegeloptik auf den Markt brachte.
Brick Generation ist eine perfekte Synthese aus Zeitgenossenschaft und zeitlosem Charme. Es handelt sich um eine Verkleidung, die die Oberfläche und die haptische Wirkung von Ziegeln mit beeindruckender Authentizität wiedergibt.
Seine Rauheit und eine bislang unerreichte Materialintensität entfalten sich in einer breiten Farbpalette, die das faszinierende Wesen des Ziegels neu interpretiert.

" Ceramica Rondine propone un'offerta produttiva in pasta bianca, dedicata alle superfici verticali interne. Le serie che compongono la nuova collezione RIVESTIMENTI sono idonee per arredare le pareti interne degli ambienti bagno, caratterizzandoli per nuances, strutture e decorazioni. Il nuovo nobile impasto permette leggerezza grazie allo spessore ridotto di 7mm e i grandi formati, uniti ad un repertorio di design armonico e sofisticato, consentono la creazione di una uniformità realizzativa unica. "

Ceramica Rondine offers a white-body production range dedicated to interior vertical surfaces.
The collections that make up the new RIVESTIMENTI line are ideal for furnishing interior bathroom walls, enhancing spaces through nuanced colour palettes, textures and decorative elements.
The new refined body ensures lightness thanks to its reduced 7 mm thickness, while large formats combined with a harmonious and sophisticated design repertoire allow the creation of a distinctive and seamless aesthetic continuity.

Ceramica Rondine propose une offre en pâte blanche dédiée aux surfaces verticales intérieures.
Les collections qui composent la nouvelle ligne RIVESTIMENTI sont idéales pour l'aménagement des murs intérieurs des salles de bains, qu'elles valorisent par des nuances, des structures et des décors raffinés.
La nouvelle pâte noble garantit légèreté grâce à une épaisseur réduite de 7 mm et, associée aux grands formats ainsi qu'à un répertoire de design harmonieux et sophistiqué, permet de créer une continuité esthétique unique

Ceramica Rondine bietet ein Produktionssortiment aus weißer Scherbe, das speziell für vertikale Innenflächen entwickelt wurde.
Die Serien der neuen Kollektion RIVESTIMENTI eignen sich ideal für die Gestaltung von Badezimmerwänden und prägen die Räume durch Nuancen, Strukturen und dekorative Elemente.
Die neue hochwertige Masse ermöglicht Leichtigkeit dank der reduzierten Stärke von 7 mm; großformatige Fliesen, kombiniert mit einem harmonischen und anspruchsvollen Designrepertoire, erlauben die Schaffung einer einzigartigen gestalterischen Einheitlichkeit.

*CONSIGLI DI POSA - INSTALLATION TIPS

Nella produzione di questa sofisticata tipologia di prodotto, nota tecnicamente come "grafica ad incastro", garantiamo una continuità grafica tra i diversi pezzi con una tolleranza di disallineamento fino ad un massimo di ± 1,5 mm. Per minimizzare l'eventuale scostamento grafico tra i diversi pezzi, è consigliata una fuga minima di 2 mm, come previsto dalla normativa vigente UNI.

In the production of this sophisticated type of product, technically known as 'interlocking graphics', we guarantee graphic continuity among the different pieces with an alignment tolerance of up to a maximum of ± 1.5 mm. In order to minimize any potential graphic deviation between the different pieces, a minimum joint of 2 mm is recommended, as required by the current UNI EN regulations.

* CONSIGLI DI POSA - INSTALLATION TIPS

Nella produzione di questa sofisticata tipologia di prodotto, nota tecnicamente come "grafica ad incastro", garantiamo una continuità grafica tra i diversi pezzi con una tolleranza di disallineamento fino ad un massimo di ± 1,5 mm. Per minimizzare l'eventuale scostamento grafico tra i diversi pezzi, è consigliata una fuga minima di 2 mm, come previsto dalla normativa vigente UNI.

In the production of this sophisticated type of product, technically known as 'interlocking graphics', we guarantee graphic continuity among the different pieces with an alignment tolerance of up to a maximum of ± 1.5 mm. In order to minimize any potential graphic deviation between the different pieces, a minimum joint of 2 mm is recommended, as required by the current UNI EN regulations.

“ La Foresta di Gres nasce da una ricerca tecnologica che traduce il linguaggio del legno in una superficie ceramica.
Venature, sfumature e texture evocano il calore del legno, mentre il gres garantisce praticità e continuità estetica in ogni ambiente.
Diverse serie pensate per rispondere alle esigenze del progetto contemporaneo, unendo cura del dettaglio, affidabilità nel tempo e massima libertà applicativa. ”

La Foresta di Gres is born from technological research that translates the language of wood into a ceramic surface. Grain, shading, and textures evoke the warmth of wood, while porcelain stoneware ensures practicality and aesthetic continuity in any setting.
Different collections are designed to meet the needs of contemporary projects, combining attention to detail, long-lasting reliability, and maximum design freedom.

La Foresta di Gres naît d'une recherche technologique qui traduit le langage du bois en une surface céramique.
Veinures, nuances et textures évoquent la chaleur du bois, tandis que le grès cérame garantit praticité et continuité esthétique dans tous les espaces.
Différentes collections conçues pour répondre aux exigences du projet contemporain, alliant souci du détail, fiabilité dans le temps et liberté d'application maximale.

La Foresta di Gres entsteht aus einer technologischen Forschung, die die Sprache des Holzes in eine keramische Oberfläche übersetzt.
Maserungen, Schattierungen und Texturen vermitteln die Wärme von Holz, während Feinsteinzeug Praktikabilität und ästhetische Kontinuität in jedem Umfeld gewährleistet.
Verschiedene Serien, die entwickelt wurden, um den Anforderungen zeitgenössischer Projekte gerecht zu werden und dabei Detailgenauigkeit, langfristige Zuverlässigkeit und maximale gestalterische Freiheit zu vereinen.

" Le Pietre e Marmi di Ceramica Rondine ricreano, attraverso la più evoluta tecnologia ceramica, l'eleganza senza tempo di un elemento della natura che, con le sue infinite sfumature, sa essere versatile e intenso. Sono 17 le serie che Ceramica Rondine ha dedicato alle Pietre e Marmi, con un'ampia gamma di colori e formati, per personalizzare ogni spazio architettonico, compreso l'outdoor "

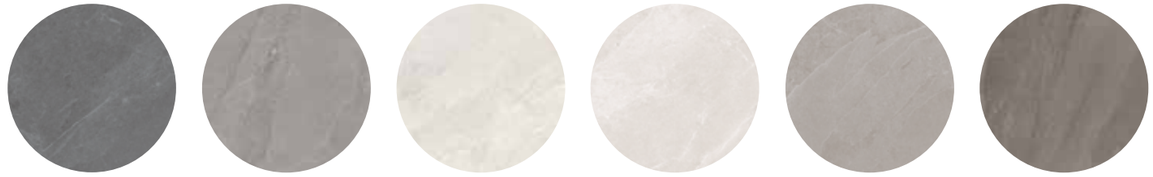

Ceramica Rondine Stones and Marbles recreate, through the most advanced ceramic technology, the timeless elegance of a natural element that, with its infinite nuances, is both versatile and intense. Ceramica Rondine has dedicated 17 collections to Stones and Marbles, offering a wide range of colours and formats to customise every architectural space, including outdoor areas.

Les Pierres et Marbres de Ceramica Rondine recréent, grâce à la technologie céramique la plus avancée, l'élégance intemporelle d'un élément naturel qui, par ses infinies nuances, se révèle à la fois polyvalent et intense.
Ceramica Rondine a consacré 17 collections aux Pierres et Marbres, avec une large gamme de couleurs et de formats pour personnaliser chaque espace architectural, y compris les environnements extérieurs.

Die Steine und Marmore von Ceramica Rondine reproduzieren mithilfe modernster Keramiktechnologie die zeitlose Eleganz eines natürlichen Elements, das mit seinen unendlichen Nuancen vielseitig und ausdrucksstark ist.
Ceramica Rondine widmet den Steinen und Marmoroberflächen 17 Serien und bietet eine breite Auswahl an Farben und Formaten zur individuellen Gestaltung aller architektonischen Räume, einschließlich des Außenbereichs.

“ Essenzialità di stile, linearità degli elementi per valorizzare l'architettura più attuale. Cotti, Cementi, Metalli e Resine trovano nuova vita nelle serie di Ceramica Rondine, per vestire la dimensione abitativa di una moderna eleganza che si addice alle tendenze contemporanee dell'interior design. ”

Essential style and linear elements enhance the most contemporary architecture. Terracotta, concrete, metals and resins find new life in Ceramica Rondine collections, dressing living spaces with a modern elegance that perfectly reflects contemporary interior design trends.

Essentiel dans le style et linéaire dans les formes, pour valoriser l'architecture la plus contemporaine. Terres cuites, bétons, métaux et résines trouvent une nouvelle expression dans les collections Ceramica Rondine, habillant les espaces de vie d'une élégance moderne en parfaite harmonie avec les tendances actuelles du design d'intérieur.

Essenzialität im Stil und klare Linien betonen die zeitgemäße Architektur. Cotto, Beton, Metalle und Harze finden in den Kollektionen von Ceramica Rondine neues Leben und verleihen Wohnräumen eine moderne Eleganz, die den aktuellen Trends des Interior Designs entspricht.

Data la struttura irregolare dei bordi della tavella, che richiama la manifattura artigianale del classico cotto fiorentino, per esaltare le qualità estetiche del prodotto, si consiglia una fuga minima di 4 mm.

Given the irregular structure of the edges of the tile, which recalls the traditional craftsmanship of the Florentine "Cotto", to enhance its aesthetic qualities, we recommend a minimum joint of 4 mm.

POSARE CON FUGA DI 4 MM
LAY WITH 4 MM JOINT
POSER AVEC UN JOINT DE 4 MM

" Per riprodurre fedelmente elementi architettonici tridimensionali e dedicati in prevalenza al rivestimento, il Gruppo Italcer si è dotata di uno strumento denominato "Tile Detector" che riconosce i differenti tamponi della superficie pressata e ne sincronizza la stampa digitale identificandoli singolarmente. Il "Tile Detector" è in grado di garantire varietà cromatica e stonalizzazione anche su materiali con rilievo particolarmente marcato, riconoscendo ogni struttura del prodotto pressato e abbinando a quella singola faccia una serie di grafiche dedicate con una perfetta sincronizzazione. Un'evoluzione nella produzione di grès porcellanato che avvicina incredibilmente la posa in facciata al prodotto naturale, sia in termini estetici che di tridimensionalità. "

To faithfully reproduce three-dimensional architectural elements, primarily intended for wall cladding, the Italcer Group has developed a tool called "Tile Detector", capable of recognizing the different pads of the pressed surface and synchronizing the digital printing by identifying them individually.
The Tile Detector ensures chromatic variation and shading even on materials with particularly pronounced relief, by recognizing each structure of the pressed product and matching each individual face with a series of dedicated graphics, perfectly synchronized.
An evolution in the production of porcelain stoneware that brings façade installation remarkably close to natural materials, both in terms of aesthetics and three-dimensionality.

Afin de reproduire fidèlement des éléments architecturaux tridimensionnels, principalement destinés au revêtement mural, le Groupe Italcer s'est doté d'un outil appelé « Tile Detector », capable de reconnaître les différents tampons de la surface pressée et de synchroniser l'impression numérique en les identifiant individuellement.
Le Tile Detector garantit une variation chromatique et une stonalisation même sur des matériaux présentant un relief particulièrement marqué, en reconnaissant chaque structure du produit pressé et en associant à chaque face une série de graphismes dédiés, parfaitement synchronisés.
Une évolution dans la production du grès cérame qui rapproche de manière exceptionnelle la pose en façade du matériau naturel, tant sur le plan esthétique que tridimensionnel.

Um dreidimensionale architektonische Elemente, die überwiegend für Wandverkleidungen bestimmt sind, originalgetreu nachzubilden, hat die Italcer Gruppe ein Instrument namens „Tile Detector" entwickelt, das die unterschiedlichen Stempel der gepressten Oberfläche erkennt und den Digitaldruck synchronisiert, indem es sie einzeln identifiziert.
Der Tile Detector gewährleistet chromatische Vielfalt und Schattierungen auch bei Materialien mit besonders ausgeprägtem Relief, indem jede Struktur des gepressten Produkts erkannt und jeder einzelnen Oberfläche eine Reihe speziell abgestimmter Grafiken mit perfekter Synchronisation zugeordnet wird.
Eine Weiterentwicklung in der Herstellung von Feinsteinzeug, die die Fassadenverlegung dem Naturmaterial sowohl in ästhetischer Hinsicht als auch in Bezug auf die Dreidimensionalität außergewöhnlich nahebringt.

CONSIGLI DI POSA - INSTALLATION TIPS

Nella produzione di questa sofisticata tipologia di prodotto, nota tecnicamente come "grafica ad incastro", garantiamo una continuità grafica tra i diversi pezzi con una tolleranza di disallineamento fino ad un massimo di ± 1,5 mm. Per minimizzare l'eventuale scostamento grafico tra i diversi pezzi, è consigliata una fuga minima di 2 mm, come previsto dalla normativa vigente UNI.

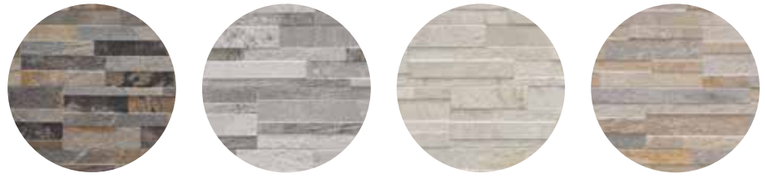

In the production of this sophisticated type of product, technically known as 'interlocking graphics', we guarantee graphic continuity among the different pieces with an alignment tolerance of up to a maximum of ± 1.5 mm. In order to minimize any potential graphic deviation between the different pieces, a minimum joint of 2 mm is recommended, as required by the current UNI EN regulations.

" Le Collezioni Metropolitane offrono un ventaglio di opportunità per scegliere il materiale che più di tutti sia in grado di comunicare un preciso stile di design e dare personalità ad ogni ambiente. Ispirazioni diverse per dare voce creativa alle esigenze del progettista alla ricerca della soluzione più adatta per l'interno e l'outdoor. "

The Metropolitan Collections offer a range of opportunities to choose the material that best conveys a specific design style and gives personality to every space.
Different inspirations give creative expression to the needs of designers in search of the most suitable solution for both indoor and outdoor environments.

Les Collections Métropolitaines offrent un éventail d'opportunités pour choisir le matériau le plus à même de communiquer un style de design précis et de donner de la personnalité à chaque espace.
Des inspirations variées donnent une voix créative aux exigences du concepteur à la recherche de la solution la plus adaptée pour les espaces intérieurs et extérieurs.

Die Metropolitan Kollektionen bieten eine Vielzahl von Möglichkeiten, das Material auszuwählen, das einen präzisen Designstil am besten vermittelt und jedem Raum Persönlichkeit verleiht.
Unterschiedliche Inspirationen geben den kreativen Anforderungen des Planers Ausdruck, der nach der geeignetsten Lösung für Innen- und Außenbereiche sucht.

SMART EDGE

LA NUOVA TECNOLGIA IDEATA DAL REPARTO DI RICERCA E SVILUPPO DI CERAMICA RONDINE, CHE CONSENTE DI OTTENERE UNA PIASTRELLA DA PRESSA CON BORDO SENZA CONICITÀ E SENZA DISTANZIALE, DEL TUTTO ASSIMILABILE AL PRODOTTO RETTIFICATO.

The new technology designed by the Rondine ceramic r&d department, which makes it possible to obtain a press tile with an edge without taper and without a spacer, completely similar to the rectified product.

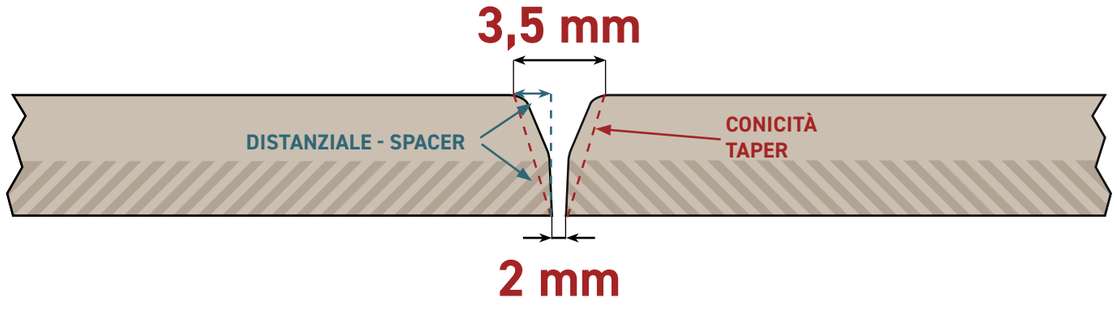

DISTANZIALE E CONICITÀ SMART EDGE
SMART EDGE SPACER & TAPER

- Piastrella prodotta con tecnologia SMART EDGE, senza conicità e senza distanziale, che consente comunque di non avere scheggiature dei bordi fra le piastrelle.
- *Tile made with SMART EDGE Technology, without tapering or a spacer but which still makes it possible not to have chipping of the edges between the tiles.*
- *Carrelage réalisé grâce à SMART EDGE Technology, sans formes coniques et sans entretoises, permet néanmoins d'éviter les brèches sur le bord des carrelages.*
- *Technisch innovativ hergestellte Fliese aus der SMART EDGE Technology ohne Konizität und ohne Abstandhalter, die dennoch das Splittern der Ränder zwischen den Fliesen verhindern.*

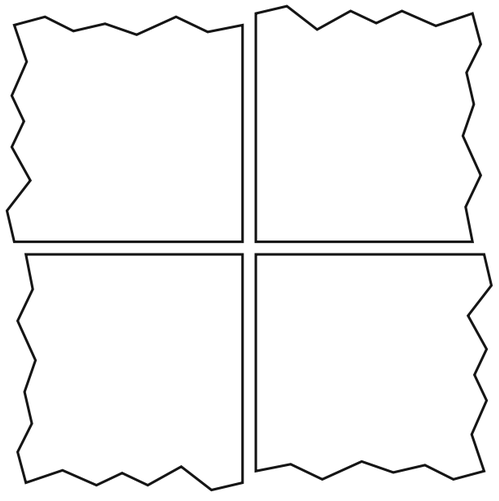

DISTANZIALE E CONICITÀ CERAMICHE TRADIZIONALI
TRADITIONAL CERAMICS SPACER & TAPER

- Piastrella tradizionale, prodotta col distanziale, per evitare che eventuali contatti in linea producano scheggiature dei bordi, e conicità per agevolare l'estrazione del manufatto dagli stampi.
- *Traditional tile made with a spacer to prevent chipping of the edges due to contact, and with tapering to facilitate tile extraction from the moulds.*
- *Carrelage traditionnel réalisé avec des entretoises pour éviter que des contacts éventuels adaptés n'ébrèchent les bords et des formes coniques pour faciliter l'extraction du carreau de son moule.*
- *Traditionelle Fliese, hergestellt mit Abstandhalter, um zu verhindern, dass eventuelle Kontakte die Ränder zersplittern können und mit Konizität, um das Entnehmen des Produkts aus der Form zu erleichtern.*

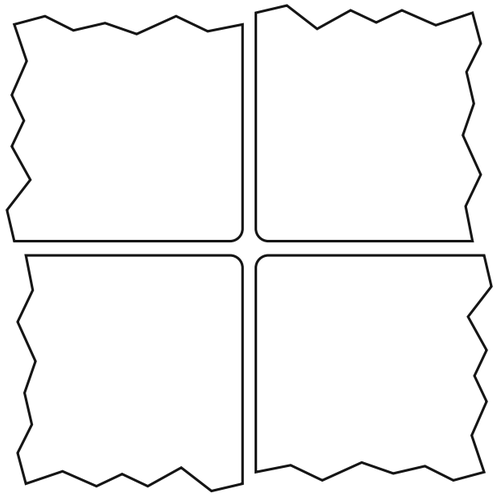

RAGGIO DI CURVATURA SMART EDGE: CURVATURA ZERO
SMART EDGE'S RADIUS OF CURVATURE: ZERO CURVATURE

- Piastrella, prodotta con raggio di curvatura 0 made in Rondine, per conferire al prodotto l'aspetto estetico tipico delle cementine
- *Tile made with a radius of curvature of 0 mm made in Rondine to produce the typical appearance of cement tiles*
- *Carrelage réalisé avec un rayon de cintrage de 0 mm made in Rondine pour conférer au produit l'aspect esthétique typique des carreaux-ciments (« cementine »)*
- *Fliese mit Krümmungsradius von 0 made in Rondine, um dem Produkt das typische Aussehen einer Zementfliese zu verleihen*

RAGGIO DI CURVATURA CERAMICHE TRADIZIONALI
TRADITIONAL CERAMICS'S RADIUS OF CURVATURE

- Piastrella tradizionale, prodotta con raggio di curvatura di 1-2 mm, per ridurre la scheggiatura degli angoli
- *Traditional tile made with a radius of curvature of 1-2 mm to reduce chipping of the corners*
- *Carrelage traditionnel muni d'un rayon de cintrage de 1 à 2 mm pour réduire le risque que les coins ne s'ébrèchent.*
- *Traditionelle Fliese mit Krümmungsradius von 1-2 mm, um das Zersplittern der Ecken zu reduzieren.*

SP

*** Produzione Speciale: questi articoli necessitano di una quantità minima e sono prodotti in 3/4 settimane.**
Special Production: a minimum quantity is required for the order of special trims on request. pieces will be produced in 3/4 weeks.
Production Spéciale: les pièces spéciales sur demande comportent une qualité minimum obligatoire. elles sont produites dans un délai de 3/4 semaines.
Sonderfertigung: die nach wunsch gefertigten formteile benötigen eine mindestqualität und werden in 3-4 wochen.

* Tutti i pezzi speciali e decori sono acquistabili solo a confezioni intere
All special trims and decors can be purchased as a whole - Achat des pieces speciales seulement par boites completes - Las piezas especiales y las decoraciones podrán adquirirse sólo en cajas enteras - Formstuecke und Dekore werden nur in vollen Kartons geliefert

* Tutti i pezzi speciali vengono fatti su richiesta dei clienti per garantire l'abbinabilità con i fondi e di conseguenza cancellazioni di ordini dopo la messa in lavorazione porteranno all'addebito al cliente dell'intero ammontare dell'ordine
All special pieces are made upon customer's request, in order to be sure they combine with the back tiles. Therefore, all orders cancelled once the material is already produced will be fully invoiced to the customer - Toutes les pièces spéciales sont réalisées sur demande des clients, pour assurer qu'elles se combinent avec les carreaux du fond. Par conséquent, les annulations de commandes après la mise en place de la production, entraîneront la facturation du montant total de la commande directement au client - Alle Sonderstücke werden auf Kundenwunsch anfertigt, um sicher zu sein, dass sie sich mit den Rückfliesen kombinieren lassen. Daher werden alle Bestellungen, die nach der Produktion des Materials storniert werden, dem Kunden vollständig in Rechnung gestellt

Indice di variazione Variation index

V1

Piastrella uniforme
Tiles with uniform appearance
Carreaux avec une apparence uniforme
Einheitliche fliese

V2

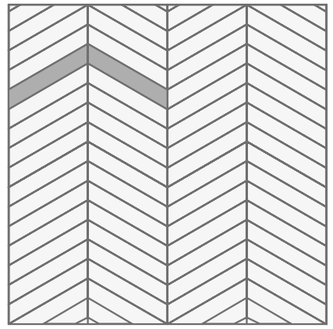

Piastrella con leggera variazione di tono e grafica
Tiles with slight shade and graphic variation
Carreaux avec faible différence de nuance et structure
Fliese mit einer leichten Abänderung des tons und grafik

V3

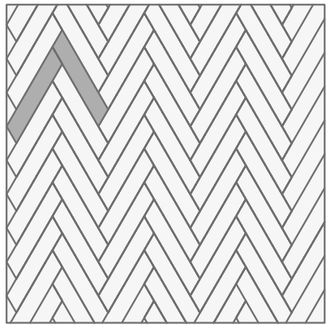

Piastrella con discreta variazione di tono e grafica
Tiles with moderate shade and graphic variation
Carreaux avec moderate différence de nuance et structure
Fliese mit einer moderat Abändurung des tons und grafik

V4

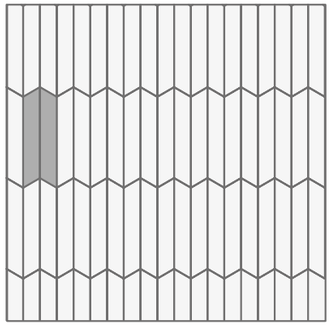

Piastrella con notevole variazione di tono e grafica
Tiles with huge varation of shade and graphic
Carreaux avec une considerable difference de nuance et structure

CONDIZIONI GENERALI DI VENDITA

Italcer S.p.A. SB ("Italcer") si riserva il diritto di modificare in qualunque momento le informazioni e le caratteristiche tecniche contenute nel catalogo ("Catalogo") e nel sito web www.ceramicarondine.it (il "Sito") (inclusi tutti i documenti e cataloghi scaricabili via internet), che non sono da ritenersi legalmente vincolanti. Pesi, colori e misure dei Prodotti ceramici venduti (i "Prodotti") possono subire variazioni tipiche del particolare processo di produzione del materiale ceramico. I colori e le caratteristiche estetiche dei Prodotti sono quanto più possibile vicini a quelli reali, nei limiti consentiti dai processi di riproduzione virtuale. Italcer considera le informazioni e le specifiche tecniche di cui al presente Catalogo corrette e precise; tuttavia, non esclude la presenza di errori materiali ed invita i compratori ("Compratori") a verificare le informazioni e le specifiche tecniche con gli agenti / commerciali di riferimento.

©2024 Italcer S.p.A. SB Tutti i diritti sono riservati. Ogni riproduzione totale e/o parziale dei contenuti del presente Catalogo, sia di testo che di immagine, è vietata e sarà perseguita nei termini di legge.

1. PRODOTTI E GARANZIA:
a. Le elevate temperature di cottura dei Prodotti possono provocare differenze di tono e di calibro. Sono perciò ammesse ed accettate dal Compratore delle differenze nelle dimensioni indicate, che però non superino i limiti di tolleranza prevista dalle norme UNI-EN-ISO 14411, fatta eccezione per talune categorie di Prodotti che, richiamando l'artigianalità dei processi produttivi tradizionali e presentando irregolarità intrinseche e differenze dimensionali volutamente ricercate, esulano dall'applicazione della suddetta normativa (a titolo esemplificativo e non esaustivo, i Prodotti delle collezioni "Brick").
b. Fatta eccezione per quanto precede, Italcer garantisce i Prodotti come conformi alle norme UNI-EN-ISO 14411 attualmente in vigore. La garanzia è limitata esclusivamente ai materiali di prima scelta. I Prodotti di seconda e di terza scelta, le partite occasionali e i Prodotti usciti di produzione si intendono venduti "venduti nello stato in cui si trovano, senza possibilità di reclamo successivo".
c. Le colorazioni dei Prodotti presentati in campionature sono da considerarsi puramente indicative. Eventuali variazioni di colore, di tonalità o di superficie sono giustificate dalla natura stessa del materiale, dalle caratteristiche dei cicli di produzione e dalle materie prime impiegate. Si consiglia pertanto di miscelare i Prodotti, prelevandoli da diverse scatole, e di posarli come da istruzioni pubblicate sul Sito.
d. Decori e pezzi speciali sono forniti in tonalità differenziate dal fondo.
e. Italcer non è responsabile per attività di levigatura e lucidatura effettuate dai clienti a seguito della consegna dei Prodotti.

2. ORDINI:
a. Ogni ordine trasmesso a Italcer dal Compratore, dagli agenti rappresentanti o incaricati è da intendersi accettato sempre salvo approvazione della direzione di Italcer.
b. Tutte le ordinazioni, anche verbali, salvo accordi contrari scritti, si intendono sempre accettate da Italcer alle presenti condizioni generali, senza bisogno di richiamarle. In assenza di precise eccezioni scritte, si intende che il Compratore accetta integralmente le condizioni particolari e generali di vendita.
c. Qualora si verifichino cause di forza maggiore, Italcer potrà recedere in parte o in toto dal contratto di vendita.

3. PREZZI:
a. I prezzi si intendono per merce resa EXW (Incoterms 2020) presso il magazzino di volta in volta indicato da Italcer, IVA esclusa.
b. I prezzi degli imballaggi sono indicati nel relativo listino e variano a seconda delle diverse tipologie di imballaggio.

4. CONSEGNA:
a. I termini di consegna concordati con Italcer sono da intendersi puramente indicativi e non vincolanti per Italcer. Eventuali ritardi nella consegna non danno mai il diritto al Compratore di annullare il contratto, né di pretendere il risarcimento di eventuali danni diretti o indiretti, ogni eccezione esclusa.
b. Italcer si riserva il diritto di effettuare ragionevoli consegne parziali.
c. La merce si intende acquistata dal Compratore EXW (Incoterms 2020) presso il magazzino di volta in volta indicato da Italcer. La merce viaggia sempre e comunque a rischio e pericolo del Compratore, anche qualora il prezzo fosse franco destino.
d. Il Compratore è obbligato a ritirare i Prodotti entro 2 (due) giorni lavorativi dalla data di "merce pronta" indicata nella comunicazione inviata da Italcer.
Trascorsi 60 (sessanta) giorni dalla data indicata come "merce pronta" senza che il Compratore abbia provveduto al ritiro, il contratto di compravendita si intenderà automaticamente risolto ai sensi dell'art. 1456 c.c.
Italcer, inoltre, si riserva il diritto di annullare l'ordine e di addebitare al Compratore:
(I) per i Prodotti standard: un importo a titolo di spese di movimentazione e gestione, compreso tra un minimo del 20% e un massimo del 50% del valore dei Prodotti;
(II) per i Prodotti Custom Made: il 100% del valore di vendita dei Prodotti, oltre ai costi di movimentazione e smaltimento.
e. Al ricevimento del materiale, il Compratore deve verificare accuratamente: (I) che il numero di colli consegnati sia coerente con quelli ordinati ed indicati sui documenti di trasporto; (II) lo stato fisico dei colli, controllando che questi non siano stati manomessi e/o danneggiati; (III) difetti nella merce immediatamente visibili alla consegna. In caso di anomalie / difetti dovrà apporre la dicitura "accettato con riserva", inserendo il motivo direttamente sul documento di consegna. Entro 24 (ventiquattro) ore dalla consegna, il Compratore dovrà altresì comunicare a Italcer per iscritto al seguente indirizzo email claim@gruppoitalcer.it le anomalie e/o i difetti riscontrati.
Italcer non accetterà alcuna contestazione relativamente a quanto sopra se non annotata sul documento di consegna e comunicata nei suddetti termini.

5. PAGAMENTO e RISERVA DI PROPRIETA':
a. I pagamenti devono essere eseguiti a favore di Italcer, secondo le modalità concordate e riportate nella fattura. I termini di pagamento sono tassativi e il loro mancato rispetto determinerà l'applicazione, sulla somma dovuta, degli interessi moratori al tasso previsto e stabilito dal D.lgs. n. 231 del 2002, senza necessità di formale costituzione in mora.
b. In caso di ritardo nel pagamento totale o anche parziale di una fattura, Italcer, salvi tutti gli altri suoi diritti, avrà facoltà di sospendere le ulteriori consegne, anche se queste fossero dovute in dipendenza di altri contratti ed anche di pretendere l'immediato e intero pagamento di tutti i Prodotti ordinati, o di averlo in altro modo garantito.
c. Si concorda espressamente che la merce consegnata rimane di proprietà di Italcer fino al completo pagamento del prezzo di acquisto da parte del Compratore. Il mancato pagamento di una delle rate può comportare automaticamente, senza formalità o preavviso, il recupero della merce da parte di Italcer ed il Compratore sarà tenuto a restituirla senza indugio. In caso di sequestro o di qualsiasi altro intervento da parte di terzi sulla merce venduta, il Compratore dovrà notificare a tali terzi l'esistenza della presente clausola di riserva di proprietà e informare tempestivamente Italcer, al fine di consentire la tutela dei propri diritti.

6. RECLAMI:
a. Non si accettano reclami per vizi palesi o accertabili con diligenza qualificata, per materiali già posati in opera.
b. I vizi occulti devono essere comunicati a Italcer per iscritto (claim@gruppoitalcer.it) entro 8 giorni dalla loro scoperta e in ogni caso non oltre entro 24 (ventiquattro) mesi dalla consegna.
c. Fatto salvo quanto previsto dal precedente punto 4 e., reclami per vizi e difetti dei Prodotti devono contenere:
(I) dati del Prodotto e numero di lotto;
(II) dettagli e spiegazione del presunto difetto;
(III) adeguata documentazione fotografica.
d. Italcer garantisce, in caso di Prodotto difettoso/viziato, esclusivamente la sostituzione dei Prodotti non conformi all'ordine, con l'espressa esclusione del risarcimento di tutti i danni, patrimoniali e non, subiti direttamente o indirettamente.
e. Qualsiasi reclamo o contestazione non implica la sospensione ed il rifiuto al pagamento delle fatture. Il pagamento dovrà effettuarsi regolarmente ed integralmente nei termini convenuti.
f. Non si accettano resi di merce se non autorizzati per iscritto da Italcer.

7. FORO COMPETENTE E LEGGE APPLICABILE:
Per qualsiasi controversia il Foro competente è quello di Reggio Emilia (Italia) e la legge italiana quella applicabile. Tuttavia, Italcer si riserva il diritto di agire presso il foro competente della sede del Compratore per azioni volte al recupero del credito. In tal caso troverà applicazione la legge locale.

Le presenti condizioni generali sono redatte in molteplici lingue.
In caso di discrepanze tra i diversi testi prevale la lingua italiana.

GENERAL SALES CONDITIONS

Italcer S.p.A. SB ("Italcer") reserves the right to modify the information and technical specifications contained in the catalogue ("Catalogue") and on the website www.ceramicarondine.it (the "Website") (including all downloadable documents and catalogues) at any time, as these are not legally binding. The weights, colours and sizes of the ceramic products sold (the "Products") may vary due to the particular manufacturing processes involved. While Italcer strives to ensure that the colours and aesthetic characteristics of its Products are as accurate as possible, there may be some variation due to the limitations of virtual reproduction. Italcer believes the information and the technical specifications in this Catalogue to be accurate; however, it does not exclude the possibility of material errors. Buyers ("Buyers") are advised to check and confirm all details with their relevant agents or sales representatives.

©2024 Italcer S.p.A. SB All rights reserved. Any unauthorised reproduction, in whole or in part, of the contents of this Catalogue, whether text or images, is prohibited and will be prosecuted in accordance with applicable laws.

1. PRODUCTS AND WARRANTY:
a. Due to the high firing temperatures, variations in tone and gauge may occur to the Products. Differences in the indicated dimensions are therefore allowed and accepted by the Buyer, provided they do not exceed the tolerance limits specified by the UNI-EN-ISO 14411 standards, with the exception of certain categories of Products which, because they reflect traditional craftsmanship processes, intentionally displaying irregularities and variations in size that are deliberately sought, are not subject to the application of the aforesaid standards (by way of example but not limited to the Products of the "Brick" collections).
b. With the exception of the foregoing, Italcer warrants that its Products comply with currently valid UNI-EN-ISO 14411 standards. The warranty is limited to first-choice materials only. Second- and third-choice Products, occasional batches and Products that are already out of production shall be deemed to be sold "as is", without any possibility of subsequent claims.
c. The colours of the Products presented in samples are to be deemed purely indicative. Variations in colour, shade or surface are inherent in the material itself, the characteristics of the production cycles and the raw materials used. Customers are advised to mix Products from different boxes and follow the installation instructions provided on the Website.
d. Decorations and special pieces may differ in shade from the background.
e. Italcer disclaims liability for any sanding or polishing work performed by customers after the Products have been delivered.

2. ORDERS:
a. Any orders submitted to Italcer by the Buyer, its representative or appointed agents shall always be deemed accepted subject to approval by Italcer's management.
b. All orders, including verbal orders, unless otherwise agreed in writing, are always to be considered accepted by Italcer under these general terms and conditions, without the need to refer to such terms and conditions. In the absence of precise written exceptions, the Buyer shall be deemed to have fully agreed to all general terms and conditions of sale.
c. In the event of force majeure circumstances, Italcer shall be entitled to partially or fully withdraw from the contract of sale.

3. PRICES:
a. Prices are for Products delivered EXW (Incoterms 2020) from the warehouse indicated by Italcer from time to time, excluding VAT.
b. Packaging costs are indicated on the relevant price list and may vary based on the type of packaging.

4. DELIVERY:
a. The delivery terms agreed with Italcer are to be understood as purely indicative and not binding for Italcer. Any delays in delivery shall never entitle the Buyer to cancel the contract, or claim compensation for any direct or indirect damages, with no exceptions.
b. Italcer reserves the right to make reasonable partial deliveries.
c. The Products are deemed to be purchased by the Buyer EXW (Incoterms 2020) at the warehouse indicated by Italcer from time to time. The Products always travel at the Buyer's risk, even if the price is carriage free.
d. The Buyer shall be obliged to collect the Products within 2 (two) working days from the receipt of the notice of the Products being ready for pickup – to be sent by Italcer. If 60 (sixty) days have passed from the date indicated as " Products ready for pick up" without the Buyer having collected them, the sales contract will be considered automatically terminated pursuant to art. 1456 of Italian Civil Code and Italcer reserves the right to cancel the order and to charge the Buyer:
(I) for standard Products: between a minimum of 20% and a maximum of 50% of the value of the Products, as compensation for handling and management costs;
(II) for Custom Made Products: 100% of the sales value of the Products, in addition to handling and disposal costs.
e. Upon receipt of the Products, the Buyer must carefully check: (I) that the number of packages delivered matches those ordered and indicated on the transport documents; (II) the physical condition of the packages, making sure that they have not been tampered with and/or damaged; (III) for any defects in the Products which are immediately visible upon delivery. In the event of anomalies/defects, the Products shall be marked "accepted with reservation", entering the reason directly on the delivery document. Within 24 (twenty-four) hours from delivery, the Buyer shall also notify Italcer in writing of the anomalies and/or defects found to the following email address claim@gruppoitalcer.it.
Italcer will not accept any claim in respect of the above unless noted on the delivery document and communicated within the above terms.

5. PAYMENT and RETENTION OF TITLE:
a. Payments shall be made in favour of Italcer, according to the terms agreed upon and set out in the invoice. Payment terms are mandatory and failure to comply with them shall result in the application, on the sum due, of default interest at the rate provided for and established by Legislative Decree no. 231 of 2002, without the need for formal notice of default.
b. In the event of delay in the total or even partial payment of an invoice, Italcer, without prejudice to all its other rights, shall be entitled to suspend further deliveries, even if these were due under other contracts, and also to demand immediate and full payment of all the Products ordered, or to have such payment otherwise guaranteed.
c. It is expressly agreed that the delivered Products shall remain the property of Italcer until full payment of the purchase price by the Buyer. Failure to pay any of the instalments may automatically, without formalities or prior notice, result in the recovery of the Products by Italcer and the Buyer shall be obliged to return such Products without delay. In the event of seizure or any other intervention by third parties on the sold Products, the Buyer shall notify such third parties of the existence of this retention of title clause and promptly inform Italcer in order to enable it to protect its rights.

6. CLAIMS:
a. No claims are accepted for obvious or detectable defects, once the materials have been installed.
b. Hidden defects must be reported to Italcer in writing (claim@gruppoitalcer.it) within 8 days of their discovery and in any case no later than 24 (twenty-four) months from delivery.
c. Without prejudice to the provisions of par. 4 e. above, claims for flaws and defects in the Products must contain:
(I) product data and batch number;
(II) detailed description of the alleged defect;
(III) adequate photographic evidence.
d. In the event of a flawed/defective Product, Italcer will replace only those Products that do not conform to the order, with the express exclusion of compensation for all damages, pecuniary or otherwise, suffered directly or indirectly.
e. Claims shall not affect the Buyer's obligation to pay invoices, which must be paid in full and on time.
f. Returned Products shall not be accepted unless authorised in writing by Italcer.

7. JURISDICTION AND APPLICABLE LEGISLATION:
For any dispute, the competent Court shall be that of Reggio Emilia (Italy) and Italian law shall be applicable. However, Italcer reserves the right to take legal action at the competent court of the Buyer's registered office for credit recovery, in which case local laws shall apply.

These general terms and conditions of sale are drawn up in several languages.
In case of discrepancies between the different texts, the Italian language shall prevail.

CONDITIONS GÉNÉRALES DE VENTE

Italcer S.p.A. SB (« Italcer ») se réserve le droit de modifier à tout moment les informations et les caractéristiques techniques contenues dans le catalogue (« Catalogue ») et sur le site internet www.ceramicarondine.it (le « Site ») (y compris tous les documents et catalogues téléchargeables sur Internet), qui ne sont pas juridiquement contraignantes. Les poids, les couleurs et les dimensions des Produits céramiques vendus (les « Produits ») peuvent varier en raison du processus particulier de fabrication du matériau céramique. Les couleurs et les caractéristiques esthétiques des Produits sont aussi proches que possible des produits réels, dans les limites permises par les procédés de reproduction virtuelle. Italcer considère que les informations et les caractéristiques techniques contenues dans le présent Catalogue sont correctes et précises ; toutefois, celle-ci n'exclut pas la présence d'erreurs matérielles et invite les acheteurs (« Acheteurs ») à vérifier les informations et les caractéristiques techniques auprès des agents/représentants commerciaux concernés.

©2024 Italcer S.p.A. SB Tous droits réservés. Toute reproduction totale et/ou partielle du contenu du présent Catalogue, qu'il s'agisse de texte ou d'image, est interdite et sera punie conformément à la loi.

1. PRODUITS ET GARANTIE :
a. Les températures élevées de cuisson des Produits peuvent entraîner des différences de nuance et de calibre. Des différences dans les dimensions indiquées sont donc admises et acceptées par l'Acheteur, à condition qu'elles ne dépassent pas les limites de tolérance prévues par les normes UNI-EN-ISO 14411, à l'exception de certaines catégories de Produits qui, étant donné le caractère artisanal des processus de production traditionnels, les irrégularités intrinsèques et les différences de dimensions délibérément recherchées, ne sont pas soumises à l'application des normes susmentionnées (à titre d'exemple mais de manière non exhaustive, les Produits des collections « Brick »).
b. À l'exception de ce qui précède, Italcer garantit que les Produits sont conformes aux normes UNI-EN-ISO 14411 en vigueur. La garantie se limite exclusivement aux matériaux de premier choix. Les Produits de deuxième et troisième choix, les lots occasionnels et les Produits sortis de la production sont considérés comme « vendus dans l'état dans lequel ils se trouvent, sans possibilité de réclamation ultérieure ».
c. Les couleurs des Produits présentés dans les échantillons doivent être considérées comme purement indicatives. Les éventuelles variations de couleur, de nuance ou de surface sont justifiées par la nature même du matériau, les caractéristiques des cycles de production et les matières premières utilisées. Il est donc recommandé de mélanger les Produits, de les prendre dans des emballages différentes et de les poser selon les instructions publiées sur le Site.
d. Les décorations et les pièces spéciales sont fournies dans des nuances différentes de celles du fond.
e. Italcer n'est pas responsable des activités de ponçage et de polissage effectuées par les clients après la livraison des Produits.

2. COMMANDES :
a. Chaque commande transmise à Italcer par l'Acheteur, ses représentants, agents ou responsables est toujours considérée comme acceptée sous réserve de l'approbation de la direction d'Italcer.
b. Toutes les commandes, y compris les commandes verbales, sauf accord écrit contraire, sont toujours considérées comme acceptées par Italcer en vertu des présentes conditions générales, sans qu'il soit nécessaire d'y faire référence. En l'absence d'exceptions écrites précises, il est entendu que l'Acheteur accepte pleinement les conditions particulières et générales de vente.
c. En cas de force majeure, Italcer pourra résilier partiellement ou totalement le contrat de vente.

3. PRIX :
a. Les prix sont indiqués pour marchandise rendue EXW (Incoterms 2020) à l'entrepôt à chaque fois indiqué par Italcer, hors TVA.
b. Les prix des emballages sont indiqués dans la liste de prix correspondante et varient en fonction des différents types d'emballages.

4. LIVRAISON :
a. Les délais de livraison convenus avec Italcer doivent être considérés comme purement indicatifs et non contraignants pour Italcer. Les éventuels retards de livraison ne donnent jamais à l'Acheteur le droit de résilier le contrat, ni de réclamer la réparation des dommages directs ou indirects, toute exception étant exclue.
b. Italcer se réserve le droit d'effectuer des livraisons partielles raisonnables.
c. La marchandise est considérée comme achetée par l'Acheteur EXW (Incoterms 2020) à l'entrepôt indiqué par Italcer à chaque fois. La marchandise voyage toujours aux risques de l'Acheteur, même si le prix est franco-destination.
d. L'Acheteur est tenu de retirer les Produits dans un délai de 2 (deux) jours ouvrables à compter de la date « marchandise prête » indiquée dans la communication envoyée par Italcer. Si 60 (soixante) jours se sont écoulés à compter de la date indiquée comme « marchandise prête » sans que l'Acheteur ne les ait retirés, le contrat de vente sera considéré comme résilié de plein droit conformément à l'art. 1456 cc. Par ailleurs, Italcer se réserve le droit d'annuler la commande et de facturer à l'Acheteur :
(I) pour les Produits standards : un montant au titre des frais de traitement et de gestion, compris entre un minimum de 20 % et un maximum de 50 % de la valeur des Produits ;
(II) pour les Produits sur mesure : 100 % de la valeur de vente des Produits, en plus des frais de manutention et d'élimination.
e. Lors de la réception du matériel, l'Acheteur doit vérifier soigneusement : (i) que le nombre de colis livrés est cohérent avec celui commandé et indiqué sur les documents de transport ; (ii) l'état physique des colis, en vérifiant qu'ils n'ont pas été altérés et/ou endommagés ; (iii) les défauts de la marchandise immédiatement visibles lors de la livraison. En cas d'anomalies/défauts, la marchandise devra être marquée comme « acceptée avec réserve » en inscrivant la raison directement sur le document de livraison. Dans les 24 (vingt-quatre) heures suivant la livraison, l'Acheteur devra également notifier par écrit à Italcer, à l'adresse électronique claim@gruppoitalcer.it, les anomalies et/ou les défauts constatés.
Italcer n'acceptera aucune objection concernant ce qui précède si elle n'est pas mentionnée sur le bon de livraison et communiquée dans les conditions susmentionnées.

5. PAIEMENT et RÉSERVE DE PROPRIÉTÉ :
a. Les paiements sont effectués en faveur d'Italcer, selon les modalités convenues et indiquées dans la facture. Les délais de paiement sont impératifs et leur non-respect entraîne l'application, sur la somme due, d'intérêts de retard au taux prévu et établi par le décret législatif n° 231 de 2002, sans qu'il soit nécessaire de procéder à une mise en demeure formelle.
b. En cas de retard dans le paiement total ou même partiel d'une facture, Italcer, sans préjudice de tous ses autres droits, a le droit de suspendre les livraisons ultérieures, même si celles-ci étaient dues dans le cadre d'autres contrats, et d'exiger le paiement immédiat et intégral de tous les Produits commandés, ou de le faire garantir d'une autre manière.
c. Il est expressément convenu que la marchandise livrée reste la propriété d'Italcer jusqu'au paiement intégral du prix d'achat par l'Acheteur. Le défaut de paiement de l'une des échéances pourra entraîner de plein droit, sans formalité ni préavis, la récupération de la marchandise par Italcer et l'Acheteur sera tenu de la restituer sur le champ. En cas de saisie ou de toute autre intervention de tiers sur la marchandise vendue, l'Acheteur notifiera auxdits tiers l'existence de la présente clause de réserve de propriété et en informera promptement Italcer afin de permettre la protection de ses droits.

6. RÉCLAMATIONS :
a. Aucune réclamation ne sera acceptée pour des vices évidents ou vérifiables avec diligence dans les matériaux déjà posés.
b. Les vices cachés doivent être notifiés à Italcer par écrit (claim@gruppoitalcer.it) dans les 8 jours suivant leur découverte et, en tout état de cause, au plus tard 24 (vingt-quatre) mois après la livraison.
c. Sans préjudice du précédent point 4 e, les réclamations pour vices et défauts des Produits doivent contenir :
(I) Les données du Produit et le numéro de lot ;
(II) les détails et l'explication du défaut allégué ;
(III) une documentation photographique adéquate.
d. En cas de Produit défectueux, Italcer garantit uniquement le remplacement des Produits non conformes à la commande, à l'exclusion expresse de la réparation de tous les dommages, pécuniaires ou autres, subis directement ou indirectement.
e. Toute réclamation ou contestation n'implique pas la suspension ou le refus de payer les factures. Le paiement devra être effectué régulièrement et intégralement dans les délais convenus.
f. Nous n'acceptons pas des retours de marchandises s'ils ne sont pas autorisés par écrit par d'Italcer.

7. JURIDICTION COMPÉTENTE ET DROIT APPLICABLE :
Pour tout litige, le tribunal compétent sera celui de Reggio Emilia (Italie) et la loi italienne sera applicable. Toutefois, Italcer se réserve le droit d'agir devant le tribunal compétent du siège social de l'Acheteur pour les actions visant à recouvrer des créances. Dans ce cas, c'est la loi locale qui s'applique.

Les présentes conditions générales sont rédigées en plusieurs langues.
En cas de divergence entre les différents textes, la langue italienne prévaut.

ALLGEMEINE GESCHÄFTSBEDINGUNGEN

Italcer S.p.A. SB („Italcer") behält sich das Recht vor, die im Katalog („Katalog") und auf der Website (die „Website") www.ceramicarondine.it (einschließlich aller über das Internet zum Herunterladen zur Verfügung stehenden Dokumente und Kataloge) enthaltenen Informationen und technischen Merkmale jederzeit zu ändern, die nicht als rechtsverbindlich angesehen werden können. Gewichte, Farben und Größen der verkauften Keramikprodukte (die „Produkte") können Schwankungen unterliegen, die für das jeweilige Herstellungsverfahren des keramischen Materials typisch sind. Farben und Aussehen der Produkte sind den tatsächlichen Produkten so ähnlich wie möglich; dies jedoch nur im Rahmen der Möglichkeiten der virtuellen Wiedergabeverfahren. Italcer geht davon aus, dass die in diesem Katalog enthaltenen Informationen und technischen Spezifikationen korrekt und genau sind; das Vorliegen von Materialfehlern kann jedoch nicht ausgeschlossen werden, weshalb der Käufer („Käufer") um Überprüfung der Informationen und technischen Spezifikationen mit den entsprechenden Vertretern / Händlern gebeten wird.

©2024 Italcer S.p.A. SB Alle Rechte vorbehalten. Jede vollständige und/oder teilweise Vervielfältigung des Inhalts dieses Katalogs, sei es in Text- oder Bildform, ist untersagt und wird im Rahmen der gesetzlichen Bestimmungen geahndet.

1. PRODUKTE UND GARANTIE:
a. Die hohen Brenntemperaturen der Produkte können zu Farbunterschieden und Kaliberschwankungen führen. Abweichungen von den angegebenen Maßen sind daher zulässig und werden vom Käufer akzeptiert, sofern sie jedoch die von der Norm UNI-EN-ISO 14411 vorgesehenen Toleranzgrenzen nicht überschreiten. Davon ausgenommen sind bestimmte Produktkategorien, die von der handwerklichen Verarbeitung mit traditionellen Herstellungsverfahren inspiriert sind, gewollte intrinsische Unregelmäßigkeiten und Größenunterschiede aufweisen und nicht der Anwendung der genannten Norm unterliegen (z. B., aber nicht ausschließlich, die Produkte der „Brick"-Kollektionen).
b. Vorbehaltlich dieser Ausnahme garantiert Italcer die Konformität der Produkte mit der derzeit gültigen UNI-EN-ISO 14411-Norm. Die Garantie beschränkt sich ausschließlich auf Materialien erster Wahl. Produkte zweiter und dritter Wahl, Gelegenheitschargen und Produkte, die aus der Produktion genommen wurden, sind als Produkte zu verstehen, die „in dem Zustand verkauft werden, in dem sie sich befinden, ohne die Möglichkeit einer späteren Reklamation".
c. Die Farben der in den Mustern gezeigten Produkte sind als rein indikativ zu betrachten. Etwaige Abweichungen in Farbe, Farbton oder Oberfläche sind durch die Beschaffenheit des Materials selbst, die Merkmale der Produktionszyklen und die verwendeten Rohstoffe begründet. Es wird daher angeraten, die Produkte untereinander zu vermischen, indem man sie aus verschiedenen Kartons nimmt, und sie gemäß den auf der Website veröffentlichten Anweisungen zu verlegen.
d. Dekore und Sonderstücke werden in Farbtönen geliefert, die sich vom Grundton unterscheiden.
e. Italcer haftet nicht für Schleif- und Polierarbeiten, die vom Kunden nach der Lieferung der Produkte durchgeführt werden.

2. BESTELLUNGEN:
a. Jede an Italcer vom Käufer, von Vertretern oder Beauftragten abgegebene Bestellung gilt stets als unter dem Vorbehalt der Zustimmung durch die Geschäftsführung von Italcer angenommen.
b. Alle, auch mündliche Bestellungen gelten, sofern nicht schriftlich anderslautend vereinbart wurde, stets als von Italcer unter diesen allgemeinen Geschäftsbedingungen angenommen, wobei keine Notwendigkeit besteht, jeweils auf diese hinzuweisen. In Ermangelung präziser schriftlicher Ausnahmen wird davon ausgegangen, dass der Käufer die besonderen und allgemeinen Verkaufsbedingungen vollständig akzeptiert.
c. Im Falle höherer Gewalt kann Italcer ganz oder teilweise vom Kaufvertrag zurücktreten.

3. PREISE:
a. Die Preise gelten für Waren EXW (Incoterms 2020) exkl. MwSt., und zwar ab dem von Italcer jeweils angegebenen Lager.
b. Die Verpackungspreise sind in der jeweiligen Preisliste angegeben und variieren je nach den verschiedenen Verpackungsarten.

4. LIEFERUNG:
a. Die mit Italcer vereinbarten Lieferfristen sind reine Richtwerte und für Italcer nicht bindend. Aus einer möglichen Lieferverzögerung erwächst dem Käufer ausnahmslos keinesfalls das Recht, den Vertrag aufzuheben noch Schadensersatz für direkte oder indirekte Schäden zu verlangen.
b. Italcer behält sich das das Recht vor, angemessene Teillieferungen vorzunehmen.
c. Die Ware gilt vom Käufer EXW (Incoterms 2020) gekauft, und zwar ab dem von Italcer jeweils angegebenen Lager. Die Waren reisen immer und in jedem Fall auf Risiko und Gefahr des Käufers, auch wenn der Preis frei Bestimmungsort vereinbart wurde.
d. Nach Erhalt der Bereitstellungsmitteilung - die Italcer schriftlich übermittelt - ist der Käufer verpflichtet, die Produkte so schnell wie möglich, auf jeden Fall aber innerhalb von 2 (zwei) Kalendertagen nach der vorbezeichneten Mitteilung, abzuholen.
Nach Ablauf von 60 (sechzig) Tagen ab dem als„bereit" angegebenen Datum, ohne dass der Käufer die Ware abgeholt hat, gilt der Kaufvertrag gemäß Artikel 1456 des italienischen Zivilgesetzbuches automatisch als aufgelöst.
Italcer behält sich außerdem das Recht vor, die Bestellung zu stornieren und dem Käufer in Rechnung zu stellen:
(I) für Standardprodukte einen Betrag für Bearbeitungs- und Verwaltungskosten, der zwischen mindestens 20% und höchstens 50% des Warenwertes liegt;
(II) für Sonderanfertigungen 100% des Verkaufswerts der Ware, zuzüglich der Bearbeitungs- und Entsorgungskosten.
e. Nach Erhalt des Materials ist der Käufer angehalten, sorgfältig zu überprüfen: (i) die Übereinstimmung der Anzahl der gelieferten Packstücke mit der bestellten und auf dem Lieferschein angegebenen Menge; (ii) den Zustand der Packstücke hinsichtlich Manipulation und/oder Beschädigung; (iii) das Vorliegen etwaiger Mängel an den Waren, die unmittelbar bei der Lieferung sichtbar sind. Bei Unregelmäßigkeiten / Mängeln ist der Vermerk „unter Vorbehalt angenommen" anzubringen und der Grund direkt auf dem Lieferschein einzutragen. Der Käufer ist zudem angehalten, Italcer binnen 24 (vierundzwanzig) Stunden nach der Lieferung über die festgestellten Unregelmäßigkeiten und/oder Mängel auch schriftlich unter der E-Mail-Adresse claim@gruppoitalcer.it zu informieren.
Italcer akzeptiert etwaige Beanstandungen in Bezug auf Vorstehendes nur, wenn diese auf dem Lieferschein vermerkt und innerhalb der oben genannten Fristen mitgeteilt werden.
5. BEZAHLUNG und EIGENTUMSVORBEHALT:
a. Die Zahlungen müssen gemäß den vereinbarten und in der Rechnung angegebenen Bedingungen zu Gunsten von Italcer erfolgen. Die Zahlungsfristen sind zwingend und ihre Nichteinhaltung hat zur Folge, dass, ohne Erfordernis einer förmlichen Inverzugsetzung, auf den geschuldeten Betrag Verzugszinsen in Höhe des in der Gesetzesverordnung Nr. 231/2002 vorgesehenen und festgelegten Satzes erhoben werden.
b. Im Falle eines Verzugs bei der vollständigen oder auch nur teilweisen Begleichung einer Rechnung ist Italcer, unbeschadet aller sonstigen Ansprüche, berechtigt, weitere Lieferungen auszusetzen, auch wenn diese im Zusammenhang mit anderen Verträgen auszuführen sind, und außerdem die sofortige und vollständige Bezahlung aller bestellten Produkte zu verlangen oder anderweitig sicherstellen zu lassen.
c. Es wird ausdrücklich vereinbart, dass die gelieferten Waren bis zur vollständigen Bezahlung des Kaufpreises durch den Käufer Eigentum von Italcer bleiben. Die Nichtbezahlung einer der Raten kann automatisch und ohne Formalitäten oder Vorankündigung zur Rückholung der Ware durch Italcer führen, und der Käufer ist verpflichtet, diese Ware unverzüglich herauszugeben. Im Falle einer Pfändung oder sonstiger Eingriffe Dritter in die verkaufte Ware hat der Käufer diese Dritten auf das Bestehen dieses Eigentumsvorbehalts hinzuweisen und Italcer unverzüglich zu informieren, um Italcer die Wahrung ihrer Rechte zu ermöglichen.
6. REKLAMATIONEN:
a. Reklamationen wegen offensichtlicher oder unter Anwendung qualifizierter Sorgfalt feststellbarer Mängel an bereits verlegten Materialien werden nicht akzeptiert.
b. Versteckte Mängel müssen Italcer binnen 8 Tagen nach ihrer Feststellung und in jedem Fall spätestens 24 (vierundzwanzig) Monate nach der Lieferung schriftlich mitgeteilt werden (claim@gruppoitalcer.it).
c. Unbeschadet der obigen Ziffer 4 e. müssen Ansprüche wegen Mängeln an den Produkten enthalten:
(I) Produktdaten und Chargennummer;
(II) Details und ausführliche Beschreibung des mutmaßlichen Fehlers;
(III) eine angemessene fotografische Dokumentation.
d. Im Falle eines defekten oder fehlerhaften Produkts garantiert Italcer nur den Ersatz der Produkte, die nicht der Bestellung entsprechen, und zwar unter ausdrücklichem Ausschluss der Entschädigung für alle direkt oder indirekt erlittenen Vermögens- oder sonstigen Schäden.
e. Eine Reklamation oder Beanstandung führt nicht zur Aussetzung und Verweigerung der Zahlung von Rechnungen. Die Zahlungen sind regelmäßig und vollständig innerhalb der vereinbarten Fristen zu leisten.
f. Rücksendungen von Waren werden nicht angenommen, es sei denn, sie wurden von Italcer schriftlich genehmigt.
7. GERICHTSSTAND UND ANWENDBARES RECHT:
Für alle Streitigkeiten ist der Gerichtsstand Reggio Emilia (Italien) zuständig, und es gilt italienisches Recht. Italcer behält sich jedoch das Recht vor, bei Klagen zur Forderungsbeitreibung das zuständige Gericht am Sitz des Käufers anzurufen. In diesem Fall gilt das örtlich anwendbare Recht.

Diese allgemeinen Bedingungen sind in mehreren Sprachen abgefasst.
Bei Unstimmigkeiten zwischen den verschiedenen Texten ist die Fassung in italienischer Sprache maßgebend.
