“Step into the world of Lithoteke”

Lithoteke

Lithoteke, dal greco Lithos (pietra) e Teke (raccolta), è una serie che celebra la pietra come patrimonio estetico e culturale e ne reinterpreta sei differenti tipologie iconiche, riproducendole con fedeltà materica e sofisticata eleganza.

Varianti cromatiche, ispirate dalla natura, che spaziano dalla struttura compatta e omogenea del Travertino Noce all'eleganza del French Stone.

Un omaggio alla sofisticata Lunel (Pietra di Luna) ma anche alla tenace Selce. In questo racconto materico non poteva mancare l'intramontabile Limestone e le venature marcate che rendono unico ed inconfondibile il Travertino Rapolano.

Una palette cromatica disponibile in due finiture, Honed e Naturale, e in quattro formati diversi, che spaziano dal maestoso 120x120 cm al più versatile 30x60 cm, esaltandone la matericità e amplificando le possibilità progettuali. La serie si completa con decori suggestivi e innovativi adatti a spazi residenziali e commerciali.

Con **Lithoteke**, la ceramica diventa una raccolta di pietre senza tempo, capace di coniugare bellezza autentica e libertà progettuale.

***Lithoteke**, from the Greek Lithos (stone) and Teke (collection), is a series that celebrates stone as an aesthetic and cultural heritage. It reinterprets six distinct, iconic types, reproducing them with material fidelity and sophisticated elegance.*

The color variations, inspired by nature, range from the compact and uniform structure of Travertino Noce to the elegance of French Stone. It pays homage to the sophisticated Lunel (Moonstone) as well as the tenacious Selce. This material narrative would be incomplete without the timeless Limestone and the distinct veining that makes Travertino Rapolano unique and unmistakable.

The color palette is available in two finishes, Honed and Naturale, and in four different sizes, from the majestic 120x120 cm to the more versatile 30x60 cm, enhancing its materiality and expanding design possibilities. The series is completed with evocative and innovative decors suitable for both residential and commercial spaces.

With **Lithoteke**, ceramics become a collection of timeless stones, capable of combining authentic beauty and design freedom.

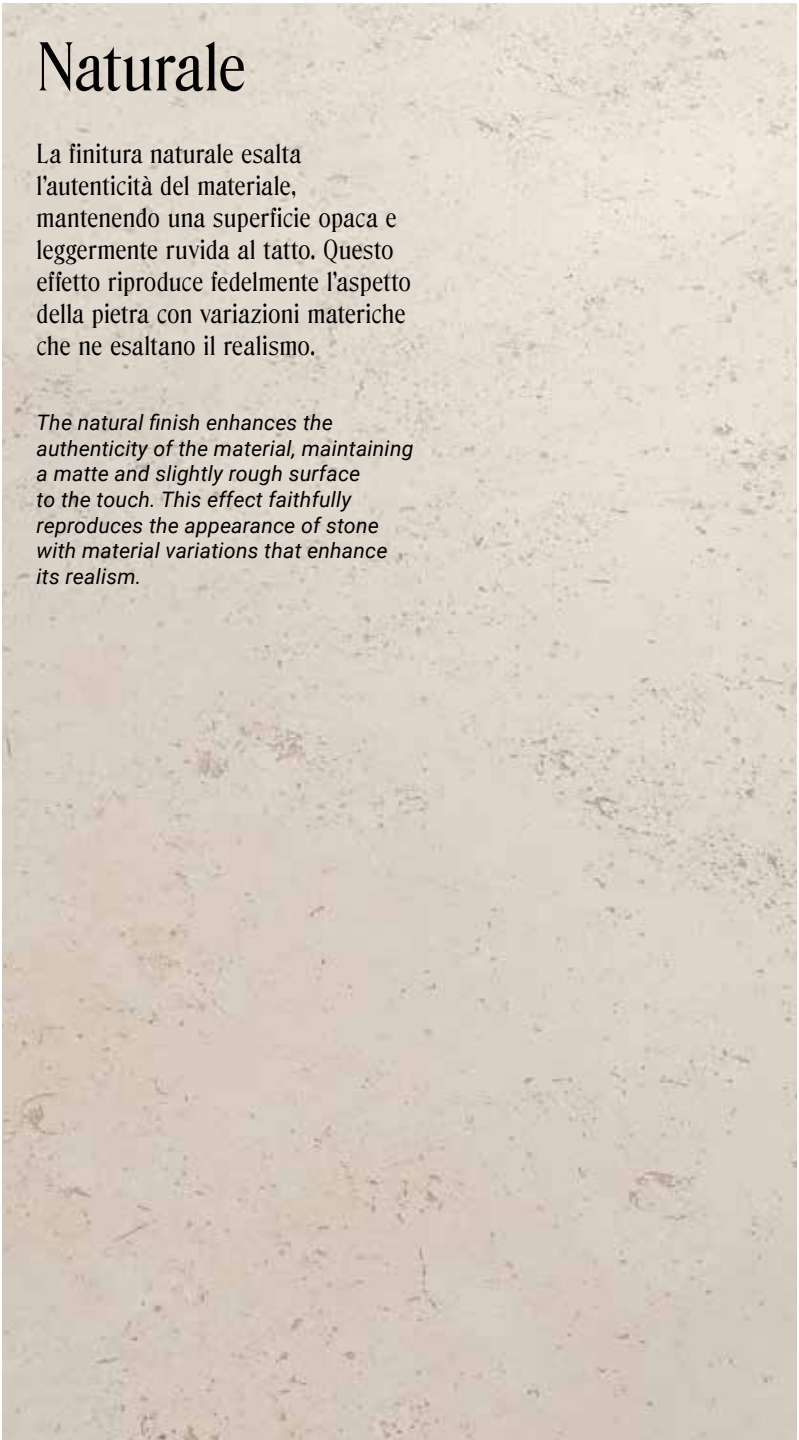

Honed

La finitura Honed è un effetto setoso e morbido al tatto, che esalta le venature e i dettagli materici. Grazie alla sua luminosità delicata, amplifica la percezione dello spazio senza risultare invadente.

The Honed finish offers a silky and soft touch, enhancing the veins and material details. Thanks to its delicate luminosity, it amplifies the perception of space without being intrusive.

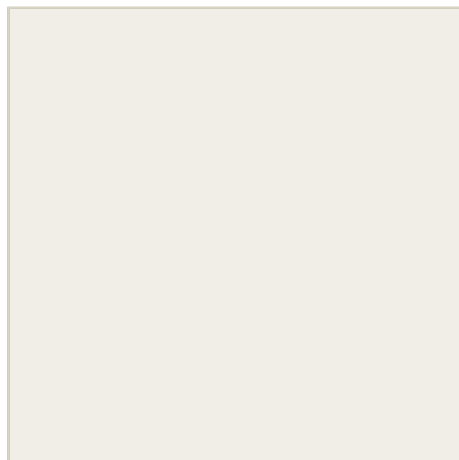

Naturale

La finitura naturale esalta l'autenticità del materiale, mantenendo una superficie opaca e leggermente ruvida al tatto. Questo effetto riproduce fedelmente l'aspetto della pietra con variazioni materiche che ne esaltano il realismo.

The natural finish enhances the authenticity of the material, maintaining a matte and slightly rough surface to the touch. This effect faithfully reproduces the appearance of stone with material variations that enhance its realism.
