by BOTTEGA®

L'effetto pietra, con richiami al cemento, torna in scena attraverso nuove proposte ceramiche con spiccate vocazioni contemporanee, mentre le esposizioni universali hanno consacrato il ruolo del metallo come elemento fondamentale per la costruzione dell'architettura moderna. Dall'unione di questi materiali nasce una nuova collezione firmata Bottega: Legame.

Ispirandosi allo stile industriale degli edifici abbandonati si afferma una nuova tendenza trasversale che ha coinvolto il mondo del design: l'unione del metallo con l'effetto pietra-cemento, dall'aspetto leggermente usurato come se si fosse ossidato nel tempo.

Legame riunisce questi must architettonici in una serie dal gusto raffinato, ribadendo il legame che li ha caratterizzati. Presentata nei formati 100x100, 60x120 e 60x60 rettificati da la possibilità di creare ambienti con fughe sottilissime, che richiamano il mood irresistibile dei vecchi stabilimenti in disuso. La bivalenza della serie regala la possibilità di creare pavimenti e rivestimenti eleganti e dinamici.

Le nuance di colore delle diverse materie e le proposte decorative concedono versatilità di progettazione.

EN The stone effect with references to concrete returns to the scene through new ceramic proposals with pronounced contemporary vocations, while world expos have consecrated the role of metal as a fundamental element for the construction of modern architecture. From the union of these materials arises a new collection signed by Bottega: Legame.

Inspired by the industrial style of abandoned buildings, a new overarching trend emerges that has involved the world of design: the union of metal with the stone-cement effect, with a slightly weathered appearance as if it had oxidized over time.

Legame brings together these architectural must-haves in a series with refined taste, reaffirming the bond that has characterized them. Presented in rectified formats of 100x100, 60x120 and 60x60, it offers the possibility to create environments with very thin joints, reminiscent of the irresistible mood of old disused factories. The duality of the series provides the opportunity to create elegant and dynamic floors and coverings. The color nuances of the different materials and the decorative proposals allow for versatility in design.

DE Der Stein-Effekt mit Anklängen an Beton kehrt durch neue keramische Vorschläge mit ausgeprägten zeitgenössischen Neigungen zurück auf die Bühne, während Weltausstellungen die Rolle des Metalls als grundlegendes Element für den Bau der modernen Architektur bekräftigt haben. Aus der Vereinigung dieser Materialien entsteht eine neue Kollektion von Bottega: Legame.

Inspiriert vom industriellen Stil verlassener Gebäude entsteht ein neuer, durchgängiger Trendim Designbereich: die Vereinigung von Metall mit dem Effekt von Stein und Beton, mit einem leicht abgenutzten Aussehen, als ob es im Laufe der Zeit oxidiert wäre. Legame vereint diese architektonischen Must-haves in einer Serie mit raffiniertem Geschmack und betont die Verbindung, die sie charakterisiert hat. Präsentiert in den Formaten 100x100, 60x120 und 60x60, ermöglicht es durch die Rektifizierung die Schaffung von Umgebungen mit sehr feinen Fugen, die die unwiderstehliche Stimmung alter stillgelegter Anlagen hervorrufen. Die Vielseitigkeit der Serie ermöglicht es, elegante und dynamische Böden und Verkleidungen zu schaffen. Die Farbnuancen der verschiedenen Materialien und die dekorativen Vorschläge bieten eine Vielzahl von Gestaltungsmöglichkeiten.

FR L'effet pierre avec des références au ciment revient sur la scène à travers des nouvelles propositions céramiques aux vocations contemporaines marquées, tandis que les expositions universelles ont consacré le rôle du métal comme élément fondamental de la construction de l'architecture moderne. De l'union de ces matériaux naît une nouvelle collection signée Bottega : Legame.

S'inspirant du style industriel des bâtiments abandonnés, une nouvelle tendance transversale émerge dans le monde du design : l'association du métal avec l'effet pierre-ciment, au look légèrement usuré comme s'il s'était oxydé avec le temps. Legame réunit ces incontournables de l'architecture dans une série au goût raffiné, soulignant le lien qui les caractérise. Présentée dans les formats 100x100, 60x120 et 60x60 rectifiés, elle offre la possibilité de créer des espaces avec des joints très fins, évoquant l'atmosphère irrésistible des anciennes usines désaffectées. La polyvalence de la série permet de créer des sols et des revêtements élégants et dynamiques. Les nuances de couleur des différents matériaux et les propositions décoratives offrent une grande souplesse de conception.

STICK

LEGAME

Stick è un decoro dal sapore rustico che ricalca le forme dei motivi a bacchetta delle facciate industriali. La sua naturalezza lo rende versatile per la posa a pavimento ed a parete.

EN Stick is a rustic-themed pattern that echoes the shapes of wand-like motifs found on industrial facades. Its natural appeal makes it versatile for both floor and wall installations.

DE Stick ist ein rustikales Dekor, das die Formen der stabähnlichen Motive industrieller Fassaden nachahmt. Seine Natürlichkeit macht es vielseitig einsetzbar für Boden- und Wandbeläge.

FR Stick est un motif au goût rustique qui rappelle les formes des motifs en forme de baguette que l'on trouve sur les façades industrielles. Son caractère naturel le rend polyvalent pour la pose au sol et au mur.
