ZC ZanettiChini
AQUA EVOLUTION

Oltre 70 anni di eccellenza artigianale Italiana

La nostra storia ha il calore del metallo
e la cura delle mani

Dal 1953, ZC Zanetti Chini è un
laboratorio dove materia e passione si
incontrano.

Fondata da Giuseppe, artigiano
visionario, è oggi guidata dai suoi figli
e nipoti, l'azienda è cresciuta restando
fedele alla propria essenza: fare bene le
cose, con cura.

Ogni rubinetto è frutto di una tradizione
viva, che scorre tra le mani degli artigiani
e prende forma in un linguaggio moderno
e senza tempo.

Over 70 years of italian craftsmanship excellence

*Our story holds the warmth of metal
and the care of human hands.*

*Since 1953, ZC Zanetti Chini
has been a workshop where materials
and passion meet.*

*Founded by the visionary craftsman
Giuseppe and now run by his children and
grandchildren, the company has grown
while staying true to its core values of
quality and care.*

*Each tap is the result of a living tradition,
that flows through the hands of artisans
and is shaped into a modern, timeless
language.*

Un'impresa familiare con respiro internazionale

La nostra forza è in una struttura snella,
radicata nel territorio ma
con uno sguardo aperto sul mondo.

Siamo "piccoli", ma proprio per questo
possiamo essere veloci, flessibili,
presenti.

Ogni cliente è unico, ogni progetto
viene ascoltato, interpretato e realizzato
con quella sensibilità che solo un'impresa
a conduzione familiare può offrire.

A family business with an international vision

*Our strength lies in our streamlined
structure, which is firmly grounded
in the local area yet keeps a close
eye on the global landscape.*

*We are "small", and that allows us
to be fast, flexible, and present.*

*Every customer is unique, and every
project is heard, interpreted, and brought
to life with the sensitivity only
a family-run company can offer.*

Il fascino della materia: dove tutto ha inizio

Nel cuore del nostro stabilimento a San Maurizio d'Opaglio, l'ottone - lega nobile di rame e zinco - viene lavorato con perizia. La barra prende forma sui torni, viene lucidata a mano, rifinita con pazienza, trattata con maestria nei reparti di galvanica e verniciatura. Ogni passaggio è controllato, ogni dettaglio è voluto. La nostra produzione è arte applicata all'acqua.

The charm of raw material: where everything begins.

At the heart of our factory in San Maurizio d'Opaglio, brass - a noble alloy of copper and zinc - is worked with great skill.

The bar is shaped on lathes, polished by hand, finished with precision, and treated with expertise in the galvanic and painting department.

Each step is meticulously planned, and every detail is intentional. Our production is art applied to water.

Infinite finiture. Infinite possibilità.

Dal cromo all'oro rosa, dal corten al cemento, fino a qualsiasi tinta della scala RAL, ogni colore, ogni texture può essere scelta per armonizzarsi con lo stile del progetto. La nostra rubinetteria si adatta, si integra, si trasforma. Perché non esistono limiti alla personalizzazione quando l'artigianato incontra la tecnologia.

Infinite finishes. Infinite possibilities.

*From chrome to rose gold,
from corten to concrete
and any shade from the RAL chart:
every colour, every texture can be selected
to match the style of the project.
Our taps adapt, integrate and transform.
The possibilities for customisation
are endless when craftsmanship
meets technology.*

Su misura: il lusso della precisione

Realizziamo rubinetteria su misura perché crediamo che ogni spazio meriti il suo carattere.

Lavoriamo su disegno, modifichiamo proporzioni, sviluppiamo dettagli insieme ai progettisti.

La nostra capacità artigianale è a servizio della libertà creativa di chi immagina e costruisce.

Bespoke: the luxury of precision

We create customised taps because we believe every space should have its own unique character.

We work with designers to develop drawings and modify proportions. Our craftsmanship serves the creative freedom of those who imagine and build.

Designer e progettisti: una relazione autentica

Con progettisti come Christophe Pillet e Giovanni Garrone, condividiamo visioni, idee, percorsi.

Non è un semplice progetto, ma un cammino comune. Le nostre collezioni nascono da questa relazione viva: oggetti che parlano il linguaggio dell'eleganza, della funzione e della cultura del progetto.

Designers and planners: a true relationship

With designers such as Christophe Pillet and Giovanni Garrone, we share visions, ideas, and paths. It's not just a project, but a common journey.

Our collections are born from this living relationship: objects that speak the language of elegance, functionality and the culture of design.

Il valore che si tocca con mano.

Ogni nostro rubinetto è progettato per durare, per emozionare nel tempo. Dietro ogni leva, ogni bocca d'erogazione, ogni particolare c'è un lavoro minuzioso fatto di prove, verifiche, assemblaggi manuali. Un prodotto ZC Zanetti Chini non è mai banale: ha un'anima tecnica e una pelle estetica pensata per lasciare il segno.

Etica, qualità, responsabilità.

Produciamo interamente in Italia, utilizziamo materiali sicuri, pratichiamo scelte sostenibili. Ogni scatola è plastic free, ogni rubinetto è testato, ogni componente è tracciabile. Essere artigiani oggi significa anche essere responsabili. E noi lo siamo, in ogni dettaglio.

Tangible value you can feel.

Each of our taps is designed to last, to excite over time. Behind every lever, every spout, every detail, there's a lot of hard work going on. This includes testing and checking each part and putting the product together by hand. A ZC Zanetti Chini product is never banal: it has a technical soul and an aesthetic skin designed to leave its mark.

Ethics, quality, responsibility.

We produce entirely in Italy, use safe materials, and make sustainable choices. Every box is plastic-free, every tap is tested, every component is traceable. Being craftsmen today also means being responsible. We are, in every detail.

ZC Zanetti Chini è scelta da architetti e interior designer per realizzazioni esclusive in tutto il mondo: da boutique hotel a resort internazionali, da dimore storiche a progetti contemporanei. Ogni installazione è una storia che scorre con l'acqua.

Perché scegliere ZC Zanetti Chini

Tradizione artigianale dal 1953

Da oltre settant'anni trasformiamo l'ottone in oggetti di valore. Ogni rubinetto racchiude la maestria tramandata di generazione in generazione, arricchita da passione, cura del dettaglio e da quel "saper fare" che rende unica l'artigianalità italiana.

Flessibilità e personalizzazione senza limiti

Dal cromo all'oro rosa, dal corten al cemento, fino a qualsiasi tinta della scala RAL: la creatività non conosce confini. Realizziamo progetti su misura, adattiamo proporzioni e sviluppiamo dettagli insieme ai designer, perché ogni spazio merita un segno distintivo.

Qualità 100% Made in Italy

Ogni rubinetto nasce nel nostro stabilimento di San Maurizio d'Opaglio, sulle sponde del Lago d'Orta, cuore pulsante della rubinetteria italiana. Tutto è realizzato internamente: dalla lavorazione dell'ottone alla galvanica, fino all'assemblaggio manuale. Il risultato è un prodotto sicuro, affidabile e destinato a durare nel tempo.

Collaborazioni con designer internazionali

Condividiamo visioni e idee con progettisti di fama come Christophe Pillet e Giovanni Garrone. Le nostre collezioni prendono forma da questo dialogo creativo, diventando oggetti che parlano il linguaggio dell'eleganza, della funzionalità e della cultura del design.

Sostenibilità e responsabilità

Essere artigiani oggi significa anche essere custodi del futuro. I nostri imballaggi sono plastic-free, ogni componente è tracciabile e i processi produttivi rispettano l'ambiente. Per noi bellezza ed etica camminano insieme, in ogni dettaglio.

INCASSI

Gli incassi vengono forniti grezzi e, se necessario, possono essere consegnati in anticipo rispetto alle parti esterne, generalmente entro una settimana dall'ordine, per consentire la continuità dei lavori in cantiere.

Le finiture delle parti esterne possono essere scelte anche successivamente all'installazione degli incassi ed eventualmente sostituite in un secondo momento, senza necessità di opere murarie.

BUILT-IN PARTS

All built-in parts are supplied unfinished and, when required, may be delivered in advance of the external parts — usually within one week from the order — to allow construction site progress. The finishes of the external parts may be selected after the installation of the built-in components and can be replaced later, without the need for masonry work.

PARTIES ENCASTRÉES

Toutes les parties encastrées sont fournies brutes et, si nécessaire, peuvent être livrées avant les parties externes — en général dans la semaine suivant la commande — afin de permettre la continuité des travaux sur chantier.

Les finitions des parties externes peuvent être choisies après l'installation des parties encastrées et éventuellement remplacées ultérieurement, sans travaux de maçonnerie.

Tous les produits ZC Zanetti Chini sont équipés de cartouches et aérateurs à débit réduit, conçus pour assurer un confort d'utilisation tout en limitant le gaspillage d'eau. Cette solution permet d'économiser une quantité significative d'eau chaque année, contribuant à une utilisation plus éthique et responsable des ressources naturelles.
